Catalog of Copyright Entries Library of Congress. Copyright Office, 1970 *A Child Is Not a Knife* Göran Sonnevi, 2023-06-06 Göran Sonnevi is one of Sweden's most celebrated, respected and prolific poets. For this first book-length selection of Sonnevi to appear in English, Rika Lesser has chosen works written between 1971 and 1989, although most of the poems come from the last decade and from Sonnevi's last three books, which form part of the single, endlessly unending, infinite interminable poem that he continues to write from book to book. Of Lesser's introduction to the work, Richard Howard writes: Lesser's wonderful prose texts at the outset provide not only an ingress into complex and baffling matter, but one of the most determined statements of the translator's text since Walter Benjamin. From by land, 1982. We are here in the ultimate lives of our bodies, negations of the ultimate negation. We are complete parts of the world. We rise up out of infinity like the limestone flats from the sea. Like the stars, we are denials of infinity. One day we shall reach all the way there. **Letters and**

Documents Søren Kierkegaard, 2009-10-25 This volume provides the first English translation of all the known correspondence to and from Søren Kierkegaard, including a number of his letters in draft form and papers pertaining to his life and death. These fascinating documents offer new access to the character and lifework of the gifted philosopher, theologian, and psychologist. Kierkegaard speaks often and openly about his desire to correspond, and the resulting desire to write for a greater audience. He consciously recognizes letter writing as an opportunity to practice composition. Unlike most correspondence, Kierkegaard's letters expressly do not require a reply; he insists on this as a principle while he clearly and earnestly yearns for a response to his efforts. Among his other principles are purposefulness, directness, and the equality of a letter to a visit with a friend. Kierkegaard preferred the former to the latter. Perhaps more than anything else in print, Kierkegaard's Letters and Documents reveal his love affair with the written word. **The Poets and Poetry of America**

Feiveson, 2018-03-12 In early 1942 the fate of the Allies appeared dire. Germany had conquered most of Western Europe, and its armies were deep into Russia. Japan had overrun Manchuria, the Philippines, and the Dutch East Indies had conquered large swathes of China and had destroyed much of the US battle fleet at Pearl Harbor. But the tide of World War II turned dramatically in favor of the Allies, and in this Allied scientists played a critical role. The chapters covered in this book include
