Franchise Law Firms and the Transformation of Personal Legal Services Jerry Van Hoy, 1997-08-26 As lawyers legal scholars and academics throughout the social sciences debate the future of legal work and the legal profession itself they turn their attention inevitably to the rise of the franchise law firms Founded in response to the changing market for legal services franchise law firms have grown dramatically in recent years but at what cost to clients and lawyers alike This book focuses on how professional organizations and the related work experience are influenced by economics and the way various firms have excelled by mass producing a basic menu of services by placing their offices at strategic locations hiring inexperienced new law school graduates and using television and other hard sell means to attract clients Van Hoy's impeccable sociological research presented in a clear readable anecdotal style will be fascinating and useful reading not only for members of the legal profession and their academic colleagues but also for aspiring lawyers and their future clients Van Hoy shows that franchise law firms are a competitive innovation in the market for personal legal services an innovation that has served to standardize lawyers work and to dehumanize lawyers themselves Precisely because the work of attorneys can be standardized and mass produced a finding that may astonish some and dismay others attorneys may be even more alienated from their chosen profession than their clients suspect Van Hoy analyzes these matters and captures the broader context in which prepackaged firms operate indeed he compares franchised attorneys to lawyers in different types of firms who are also competing for the same business Van Hoy is convinced that many attorneys are not only alienated but are ripe for unionization He shows that collegiality no longer insulates attorneys from the pressures and dissatisfactions of the outside world a research finding that in itself may seriously challenge prevailing viewpoints and shake confidence in the belief that legal work is not just a profession but also a calling **Your Federal Income Tax for Individuals** United

States. Internal Revenue Service, 2009 **Your Federal Income Tax for Individuals**, 2014 **Code of Mohammedan Personal Law According to the Hanafite School** Muḥammad Qadrī, 1914 *Personalized Law* Omri Ben-Shahar, Ariel Porat, 2021-05-17 We live in a world of one size fits all law People are different but the laws that govern them are uniform Personalized Law rules that vary person by person will change that Here is a vision of a brave new world where each person

is bound by their own personally tailored law Reasonable person standards would be replaced by a multitude of personalized commands each individual with their own reasonable you rule Skilled doctors would be held to higher standards of care the most vulnerable consumers and employees would receive stronger protections age restrictions for driving or for the consumption of alcohol would vary according the recklessness risk that each person poses and borrowers would be entitled to personalized loan disclosures tailored to their unique needs and delivered in a format fitting their mental capacity The data and algorithms to administer personalize law are at our doorstep and embryos of this regime are sprouting Should we welcome this transformation of the law Does personalized law harbor a utopic promise or would it produce alienation demoralization and discrimination This book is the first to explore personalized law offering a vision of law and robotics that delegates to machines those tasks humans are least able to perform well It inquires how personalized law can be designed to deliver precision and justice and what pitfalls the regime would have to prudently avoid In this book Omri Ben Shohar and Ariel Porat not only present this concept in a clear easily accessible way but they offer specific examples of how personalized law may be implemented across a variety of real life applications
