The Origin and Growth of Geography as a discipline at South Africa Universities Gustav Visser, 2016-09-20 The publication provides the first comprehensive text that reflects on a century of the development of geography as an academic discipline at South African universities The book

showcases a broad and textured review of South Africa's geography departments, their staff members, their times, and the different Geographies they engaged in. The book lays the foundation from which more expansive individual departmental histories can be written in the future.

Corrupted Jonathan D Jansen, 2023-02 Through investigatory reports and interviews Jonathan Jansen reveals the structural conditions for chronic dysfunction in a sample of South African universities. He reveals the political economy at work and the intense competition for resources on campuses. He also provides interventions for these fragile institutions. Why do some universities seem to be in a constant state of turmoil and dysfunction? Jonathan Jansen explores the root causes of chronic instability in a sample of South African universities. Through scrutiny of investigatory reports and interviews with more than 100 university managers and government officials, Jansen finds that at the heart of the dysfunction in universities is an intense and sometimes deadly competition for resources, especially on campuses located in impoverished communities. It is not the lack of institutional resources but their concentration in a university that draws a mix of corrupt actors from local politicians and taxi operators to members of council and management into a never-ending run on the material, such as money for infrastructure and symbolic, namely graduation certificates for sale. Assets of these institutions, Jansen argues, that the problem won't be solved through investments in capacity building alone because the combination of institutional capacity and institutional integrity contributes to serial instability in universities. Jansen makes an important intervention to understanding the root causes and offers interventions to produce stabilities, such as the depoliticisation of university councils and appointing academics of integrity and capacity in the management and leadership of these fragile institutions. This groundbreaking and long overdue study will offer a promising way forward for universities to better serve their communities and the country more broadly.

Restless Infections Jay Pather, 2025-06-01 Restless Infections is a collection of critical essays exploring artistic interventions in urban spaces, focusing on place-making and the politics of space in South Africa. The writers examine seminal artworks by South African artists addressing diverse forms of expression, such as site-specific performances, immersive installations, film, photography, and online performances. The book is divided into three sections: The Restless City, Public Art for Multiple Publics, and Land Home Belonging. It introduces new perspectives on public sphere performance, such as Khanyisile Mbongwa's reimagining of township alleyways for public encounters and Mbongeni Mtshali's study of everyday performances that challenge colonial and neo-colonial spatial organization. The title Restless Infections is derived from the popular Infecting the City public art festival, symbolizing the persistent state of restlessness in a city still grappling with the legacies of colonialism, inequality, and racial segregation. This restlessness is tied to a desire for economic and political stability expressed through transient art forms like Santu Mofokeng's billboard photography. The book shifts the focus of public art discourse in South Africa from static forms like monuments and statues to dynamic, temporary interventions that question the concept of publicness. These interventions engage with protest, public intimacy, audience interaction, and the disrupted topography of apartheid cities. As the first scholarly volume to

read public spheres through a multi and interdisciplinary lens Restless Infections argues that the diverse artistic modes explored are essential to understanding the complexities of publicness in South Africa **Serving Higher Purposes** Ihron Rensburg, 2020-11-05 Universities of the 21st century and beyond must be about teaching learning research excellence creativity and innovation as much as they must be about enabling the destiny of students communities and nations to realize their potential UJ succeeded in her vision and responsibilities to transform the divisions prejudices and limitations that often restrain the advancement of society The story of UJ's transition to an inclusive diverse dynamic bold and purposeful institution of learning demands to be read by everyone South African African and beyond It is a story of how to be an object rather than the subject of history while dynamically shaping our shared futures laying a solid foundation for future generations to be advocates and architects for social change and cohesion It is a story of courageous and visionary leadership The book offers our nation profound lessons in leadership that should enrich all our efforts to transform institutions in a sustainable way to play a meaningful role in building ONE NATION DR WENDY LUHABE Economic Activist Social Entrepreneur First Chancellor of the University of Johannesburg The Golden Disc Robyn Adams, 2013-11-19 Holding up the device Jondra said This is the Golden Disc of Ra the Healing Bomb from our home planet Because of the sudden and unexpected nature of its destruction this force was never activated It was originally prepared to transmute negative emotional thoughts into much more compassionate and loving actions in an explosion of consciousness not protect us from wayward meteors One day it may save the dwellers on this planet Earth from destroying themselves Pity we never had a chance to test it The Earth is in crisis as the Forces of Darkness and Destruction are rapidly gaining power in many countries Four people remember their ancient pledge to re-discover one section of the powerful device if a dire enough situation warrants it When a rogue country detonates a nuclear bomb over Jerusalem these four are called to save humanity from a destructive aftermath of retribution From each continent comes one whose ancient destiny is to reassemble the Golden Disc programmed millennia ago to empower the Forces of Light to triumph One by one the four are awakened to their destiny reconnected with each other and travel to Kenya to reassemble the Golden Disc that will save the Earth They must release a wave of higher consciousness from the device called a Healing Bomb before several other countries ally to become involved in all out nuclear war which will have a cataclysmic effect on Earth and humanity far greater than the predicted earth changes that were due to take place at the end of 2012 Will they make it before the deadline and can they remember how to re-assemble the device in time If it is not done absolutely correctly a terrible conflagration could destroy the very thing they are trying to save Earth To do so they will have to outwit those whose role it is to prevent this from happening by Robyn Adams **Discourse, Media, and Conflict** Innocent Chiluba, 2022-04-28 This book applies approaches in linguistics to analyse the role of news media in conflict and peace processes *Troubling Images* Federico Freschi, Brenda Schmahmann, Lize van Robbroeck, 2020-02-01 Troubling Images explores how art and visual culture helped to secure
