

Guide to Calibration of Panasonic Plasma TC-P42S1

Applies to any PXCS1 series

I would like to thank the following members from AVS Forums for providing such excellent resources:

- D-Nice for X1 offsets and break-in settings
- Evangelho2 for break-in slides
- LarryInRI for many many helpful posts
- LeM22 for service menu navigation instructions, including checking number of hours run
- Oeta for more tips and G10 calibration
- Sadmaker for S1 offsets

I decided to create this document because I found myself struggling trying to piece together all of the information without screwing anything up. For example, using D-Nice's settings for break-in, then looking through 60 pages to find out how long each slide should be on the screen (30 seconds), then trying to navigate the service menu (I was a n00b and it took me a while to figure it out, so I wanted to write a detailed description for other n00bs), then trying to find out how many hours my TV had been running, etc. Then trying to find S1 offsets since D-Nice hasn't posted these yet. So I thought it'd be best to put ALL of this information into one place so people can refer n00bs to it whenever they have questions.

NOTE: Anytime a command is formatted LIKE THIS, that means you press that key on the TV remote.

Step 1: Break-in

The first step is to run the break-in slides on your plasma TV. These are static images run off either an SD card or a DVD that cycle through various full-screen colours. For best calibration results, you should run these slides for at least 120 hours.

1. I used an SD card for this. Download the images located at:
http://www.capeprogramming.com/downloads/files/BreakIn_Images.zip
 - Alternatively, you can run this from a DVD. Burn the following ISO image:
http://www.capeprogramming.com/downloads/files/_Breakin_DVD_R_ISO.zip
2. Place the SD card into your computer via an SD card reader. I removed everything from my SD card and just loaded the 20 images onto there.
3. Place the SD card into the TV card reader (on the left side).
4. On the TV remote, press SD CARD.
5. While in the SD card menu, press OK on the remote to select the first slide.
6. Press R (the red key) on the TV remote to select slideshow mode.
7. Press MENU on the TV remote. Enter the following settings (provided by D-Nice):
 - a. Picture
 - Picture mode: Vivid
 - Contrast: 100
 - Brightness: 55
 - Color: 65
 - Tint: 0
 - Sharpness: 50
 - Color temp: Cool
 - CATS: Off
 - Video NR: Off
 - Advanced picture
 - MPEG NR: Off
 - Black level: Light
 - b. Slideshow settings
 - Speed: Slow (30 seconds)
 - Repeat: On
8. Make sure that there is no text and that there are no black bars on the screen while these slides are running.
9. Run the slides for a total of 120 hours. I ran mine almost continuously, only turning it off for about 8 hours.
