Wuebben,2019-07-01 The proliferation of electric communication and power networks have drawn wires through American landscapes like vines through untended gardens since 1844 But these wire networks are more than merely the tools and infrastructure required to send electric messages and power between distinct places the iconic lines themselves send powerful messages The wiry webs above our heads and the towers rhythmically striding along the horizon symbolize the ambiguous effects of widespread industrialization and the shifting

values of electricity and landscape in the American mind In *Power Lined* Daniel L Wuebben weaves together personal narrative historical research cultural analysis and social science to provide a sweeping investigation of the varied influence of overhead wires on the American landscape and the American mind Wuebben shows that overhead wires from Morse s telegraph to our high voltage grid not only carry electricity between American places but also create electrified spaces that signify and complicate notions of technology nature progress and most recently renewable energy infrastructure *Power Lined* exposes the subtle influences wrought by the wiring of the nation and shows that even in this age of wireless devices perceptions of overhead lines may be key in progressing toward a more sustainable energy future *Tucson Electric Power Company Sahuarita-Nogales Transmission Line* ,2005 [Energy Abstracts for Policy Analysis](#) ,1988 *Republic of Iraq Public Expenditure Review* The World Bank,2014-08-26 This Public Expenditure Review PER provides an integrated perspective on Iraq s need to provide better public service delivery while maintaining macroeconomic stability and fiscal discipline The achievement of these objectives unfolds within a challenging context of revenue volatility the need to diversify the economy weak accountability mechanisms and residual conflict Reflecting these challenges key socio economic developmental indicators are stalled or even declining despite rapid growth in public spending Indeed the review shows that growth in spending has not been matched by absorptive capacity let alone improved outcomes The difficult task of constructing the fiscal institutions to embed the practices of good economic management remains a work in progress The PER is one component of World Bank assistance to the government to improve public expenditure policy and management The challenge for the Iraqi authorities in the years ahead will be to turn oil revenues into sustained welfare improvements Macroeconomic stability alone is not enough to address social and economic development issues and to avoid a resource curse Iraq s oil wealth alone cannot generate sustainably high living standards for the majority of its population Economic diversification is an imperative both to create jobs and to promote income generating opportunities for the Iraqi population The key challenges for the authorities therefore are i to remove constraints to non hydrocarbon economic activities ii to ensure the efficient use of oil revenue and iii to restrain the growth of current spending in particular wage bill and subsidies to free up resources for public investment while maintaining essential safety nets and social support for the poor and disadvantaged Public investment management is a crosscutting capability that is needed to meet Iraq s development objectives The government has the opportunity to take concrete steps now The PER proposes approaches and actions to better use Iraq s oil revenues by shifting to a save and invest via curbing inefficient spending and redirecting resources to public investment and basic services As economic growth prospects are favorable in the medium term the Iraqi government has the opportunity to lay the foundations of a broadly diversified economy with a reasonable footprint that provides decent public services and security while facilitating adequate economic freedom Senior policy makers at the Ministry of Finance Ministry of Planning and line ministries are the primary audience of this work **Keeping the Lights on** United States.
