**Creativity and Crime** David H. Cropley, Arthur J. Cropley, 2013-07-25 Creativity is typically perceived to be a positive constructive attribute and yet highly effective novel crimes are committed which illustrate that creativity can also be utilised to serve a darker and more destructive end But how can these creative criminals be stopped Adopting a psychological approach renowned subject experts Cropley and Cropley draw upon concepts such as Person Process Press and Product to explain how existing psychological theories of creativity can be applied to a more subtle subset of ingenuity that is to say criminal behaviour and its consequences Creativity and Crime does not look at felony involving impulsive reflexive or merely deviant behaviour but rather the novel and resourceful measures employed by criminals to more effectively achieve their lawbreaking goals The book transcends the link between crime and creativity and proposes a range of preventative measures for law enforcers Scholars and graduates alike will find this an invaluable and illuminating read

*Handbook of the Economics of Art and Culture* Victor A. Ginsburgh, David Throsby, 2006-09-13 Over the last 30 or 40 years a substantial literature has grown up in which the tools of economic theory and analysis have been applied to problems in the arts and culture Economists who have surveyed the field generally locate the origins of contemporary cultural economics as being in 1966 the year of publication of the first major work in modern times dedicated specifically to the economics of the arts It was a book by Baumol and Bowen which showed that economic analysis could illuminate the supply of and demand for artistic services the contribution of the arts sector to the economy and the role of public policy Following the appearance of the Baumol and Bowen work interest in

the economics of the arts grew steadily embracing areas such as demand for the arts the economic functions of artists the role of the nonprofit sector and other areas Cultural economics also expanded to include the cultural or entertainment industries the media movies the publishing industry popular music as well as heritage and museum management property right questions in particular copyright and the role of new communication technologies such as the internet The field is therefore located at the crossroads of several disciplines economics and management but also art history art philosophy sociology and law The Handbook is placed firmly in economics but it also builds bridges across these various disciplines and will thus be of interest to researchers in all these different fields as well as to those who are engaged in cultural policy issues and the role of culture in the development of our societies Presents an overview of the history of art markets Addresses the value of art and consumer behavior toward acquiring art Examines the effect of art on economies of developed and developing countries around the world

**Deep Learning** Stellan Ohlsson, 2011-01-31 Although the ability to retain process and project prior experience onto future situations is indispensable the human mind also possesses the ability to override experience and adapt to changing circumstances Cognitive scientist Stellan Ohlsson analyzes three types of deep non monotonic cognitive change creative insight adaptation of cognitive skills by learning from errors and conversion from one belief to another incompatible belief For each topic Ohlsson summarizes past research re formulates the relevant research questions and proposes information processing mechanisms that answer those questions The three theories are based on the principles of redistribution of activation specialization of practical knowledge and re subsumption of declarative information Ohlsson develops the implications of those mechanisms by scaling their effects with respect to time complexity and social interaction The book ends with a unified theory of non monotonic cognitive change that captures the abstract properties that the three types of change share
