L'OTAN suscite bon nombre de questions auxquelles ce livre répond de façon novatrice. Pourquoi l'OTAN continue-t-elle d'exister alors que l'ennemi qui a justifié sa création, l'Union soviétique, a disparu ? Ce livre répond de manière novatrice à cette question fort débattue en traitant du développement du contre-terrorisme de l'OTAN dans les années 2000-2010. Cet ouvrage de science politique veut éclairer les lecteurs sur les questions autour de l'OTAN. PROPOS DE L'AUTEUR Julien Pomarède est docteur en sciences politiques et sociales de l'Université libre de Bruxelles (ULB). Il est chercheur au centre Recherche et études en politique internationale (REPI) de l'ULB. Ses recherches portent sur les relations internationales et plus spécifiquement sur les questions de sécurité et de guerre. Il enseigne aussi ces domaines dans différentes universités. **Strategic Narratives, Public Opinion and War** Beatrice De Graaf, George Dimitriu, Jens Ringsmose, 2015-02-11. This volume explores the way governments endeavoured to build and maintain public support for the war in Afghanistan combining new insights on the effects of strategic narratives with an exhaustive series of case studies. In contemporary wars with public opinion impacting heavily on outcomes, strategic narratives provide a grid for interpreting the why, what and how of the conflict. This book asks how public support for the deployment of military troops to Afghanistan was garnered, sustained or lost in thirteen contributing nations. Public attitudes in the US, Canada, Australia and Europe towards the use of military force were greatly shaped by the cohesiveness and content of the strategic narratives employed by national policy makers. Assessing the ability of countries to craft a successful strategic narrative, the book addresses the following key areas: 1. how governments employ strategic narratives to gain public support; 2. how strategic narratives develop during the course of the conflict; 3. how these narratives are disseminated, framed and perceived through various media outlets; 4. how domestic audiences respond to strategic narratives; 5. how this interplay is conditioned by both events on the ground in Afghanistan and by structural elements of the domestic political systems. This book will be of much interest to students of international intervention, foreign policy, political communication, international security, strategic studies and IR in general. *Repère*, 2012. *La Colombie aujourd'hui* Denis Rolland, 2007-05-01. Que connaît-on en Europe de la Colombie aujourd'hui ? Elle est perdue de l'extérieur, traversée de structures occultant violence et drogue au premier plan, empêchant toute perception d'une normalité ventuelle. Aussi, ce livre a-t-il pour objectif de fournir un matériau documentaire important, une matière à penser en donnant la parole aux journalistes, politiques universitaires ou acteurs de la vie sociale s'exprimant librement dans les colonnes d'opinion de leur presse nationale. Une remarquable et originale introduction, un pays complexe. **L'Afghanistan, ou description géographique** Narcisse Perrin, 1842.

Taliban en Afghanistan Adam Baczko, 2021-09-09 Et si les Taliban aux capacités militaires et technologiques bien inférieures celles des armées occidentales avaient gagné la guerre par le droit Tandis que la coalition internationale a mis sur pied un système juridique inadapté et miné par la corruption les Taliban ont installé des centaines de tribunaux dans les campagnes en insistant sur le respect des procédures, l'impartialité des juges et l'application des verdicts ce système de justice s'est imposé comme une des rares sources de prévisibilité dans le quotidien des Afghans Le tribunal des Taliban est pour tous mais le tribunal du gouvernement est seulement pour les gens riches confie un habitant de la province du Wardak De quelles manières les Taliban ont-ils gagné la confiance de la population Comment sont-ils parvenus à se mettre en position de réguler les rapports sociaux Et avec quelles conséquences pour la société afghane Nourrie par un travail de terrain au long cours dans différentes provinces en Afghanistan cette enquête offre de nouvelles perspectives sur un pays en guerre depuis quatre décennies et propose une réflexion novatrice sur la place du droit dans les guerres civiles

L'Armée française en Afghanistan. Le génie au combat 2001-2012 Christophe Lafaye, 2016-05-19 L'Afghanistan marque pour l'armée française le retour des combats de haute intensité Entre 2001 et 2014 70 000 militaires s'y rendent faisant de ce théâtre d'opérations un véritable creuset pour une nouvelle génération du feu après celle de la guerre d'Algérie La compréhension de ce conflit se révèle indispensable pour appréhender les nouveaux défis qui attendent une armée de Terre en pleine mutation Pour le Génie cette opération signe le retour au premier plan des savoir-faire liés aux opérations de contre-guerrilla Dès 2003 les talibans utilisent des engins explosifs improvisés pour faire peser une menace lourde sur les troupes déployées au sol Le Génie se dote d'une chaîne complète de moyens pour lutter contre ces bombes artisanales responsables de plus de la moitié des pertes de la coalition occidentale Un ouvrage décisif pour comprendre l'engagement français en Afghanistan au plus près du terrain

Le gouvernement transnational de l'Afghanistan Gilles Dorronsoro, 2021-02-04 La défaite des Taliban dans le sillage des attentats du 11 septembre ouvre deux décennies d'investissement occidental en Afghanistan Des centaines de milliards pour l'essentiel consacrés à l'entretien des forces occidentales des dizaines de milliers

de morts dont plusieurs milliers de la coalition montrent l'importance de ce conflit pour les Etats Unis qui en font le symbole de leur hégémonie mondiale. Mais derrière les discours sur la construction d'une démocratie de marché se profile un gouvernement transnational qui contourne les acteurs afghans au point d'interdire tout processus démocratique, couvre des fraudes électorales massives, routinise la captation des ressources au profit des entreprises occidentales et des élites afghanes. Les tensions communautaires et sociales s'accroissent au point que l'inconnu dans la société afghane. Les Taliban capitalisant sur le ressentiment populaire contre les élites au pouvoir mettent en échec une alliance occidentale qui dissimule derrière une augmentation des moyens son incapacité à finir une stratégie cohérente. Après vingt ans de conflit, al-Qaïda est toujours présent en Afghanistan et le retrait américain ne fait qu'ouvrir une nouvelle période d'une guerre civile vieille de quarante ans. Ce nouvel essai de Gilles Dorronsoro propose une analyse critique impitoyable des impasses de l'expertise orientaliste et bureaucratique dont la portée comparative bien au-delà du seul cas afghan est d'une haute actualité.
