War Against the People Jeff Halper, 2015-09-20 Shortlisted for the Palestine Book Awards 2016 Modern warfare has a new form The days of international combat are fading So how do major world powers maintain control over their people today This book is a disturbing insight into the new ways world powers such as the US Israel Britain and China forge war today It is a subliminal war of surveillance and whitewashed terror conducted through new high tech military apparatuses designed and first used in Israel against the Palestinian population Including nano technology hidden camera systems information databases on civilian activity automated targeting systems and unmanned drones it is used to control the very people the nation's leaders profess to serve Jeff Halper reveals that this practice is much more insidious than was previously thought As Western governments claw back individual liberties War Against the People is a reminder that fundamental human rights are being compromised for vast sections of the world and that this is a subject that should concern everyone

The Palestine Laboratory Antony Loewenstein, 2024-10-01 How Israel makes a killing from the occupation of Palestine WINNER OF THE 2023 WALKLEY NON FICTION JOURNALISM PRIZE Finalist for the 2023 Moore Prize for Human Rights Writing Israel's military industrial complex uses the occupied Palestinian territories as a testing ground for weaponry and surveillance technology that they then export around the world to despots and democracies For more than 50 years occupation of the West Bank and Gaza has given the Israeli state invaluable experience in controlling an enemy population the Palestinians It's here that they have perfected the architecture of control Best selling journalist Antony Loewenstein author of Disaster Capitalism uncovers this largely hidden world in a global investigation with secret documents revealing interviews and on the ground reporting This book shows in depth for the first time how Palestine has become the perfect laboratory for the Israeli military techno

complex surveillance home demolitions indefinite incarceration and brutality to the hi tech tools that drive the Start up Nation From the Pegasus software that hacked Jeff Bezos and Jamal Khashoggi s phones the weapons sold to the Myanmar army that has murdered thousands of Rohingyas and drones used by the European Union to monitor refugees in the Mediterranean who are left to drown Israel has become a global leader in spying technology and defence hardware that fuels the globe s most brutal conflicts As ethno nationalism grows in the 21st century Israel has built the ultimate model

Decolonizing Israel, Liberating Palestine Jeff Halper, 2021-01-20 Extremely convincing Electronic Intifada For decades we have spoken of the Israel Palestine conflict but what if our understanding of the issue has been wrong all along This book explores how the concept of settler colonialism provides a clearer understanding of the Zionist movement s project to establish a Jewish state in Palestine displacing the Palestinian Arab population and marginalizing its cultural presence Jeff Halper argues that the only way out of a colonial situation is decolonization the dismantling of Zionist structures of domination and control and their replacement by a single democratic state in which Palestinians and Israeli Jews forge a new civil society and a shared political community To show how this can be done Halper uses the 10 point program of the One Democratic State Campaign as a guide for thinking through the process of decolonization to its post colonial conclusion Halper s unflinching reframing will empower activists fighting for the rights of the Palestinians and democracy for all

Pharaohs on Both Sides of the Blood-Red Waters Allan Aubrey Boesak, 2017-07-12 After the civil rights and anti apartheid struggles are we truly living in post racial post apartheid societies where the word struggle is now out of place Do we now truly realize that as President Obama said the situation for the Palestinian people is intolerable This book argues that this is not so and asks What has Soweto to do with Ferguson New York with Cape Town Baltimore with Ramallah With South Africa the United States and Palestine as the most immediate points of reference it seeks to explore the global wave of renewed struggles and nonviolent revolutions led largely by young people and the challenges these pose to prophetic theology and the church It invites the reader to engage in a trans Atlantic conversation on freedom justice peace and dignity These struggles for justice reflect the proposal the book discusses there are pharaohs on both sides of the blood red waters Central to this conversation are the issues of faith and struggles for justice the call for reconciliation its possibilities and risks the challenges of and from youth leadership prophetic resistance and the resilient audacious hope without which no struggle has a future The book argues that these revolutions will only succeed if they are claimed embraced and driven by the people

Stephen Hester, Peter Eglin, 2017-05-15 A Sociology of Crime has an outstanding reputation for its distinctive and systematic contribution to the criminological literature. Through detailed examples and analysis it shows how crime is a product of processes of criminalisation constituted through the interactional and organizational use of language. In this welcome second edition the book reviews and evaluates the current state of criminological theory from this grammatical perspective. It maintains and develops its critical and subversive stance but greatly widens its theoretical range including dedicated chapters on gender, race, class and the post als including postcolonialism. It now also provides questions, exercises and further readings alongside its detailed analysis of a set of international examples both classical and contemporary. Encountering Palestine Mark Griffiths, Mikko Joronen, 2023-12 Encountering Palestine: Unmaking Spaces of Colonial Violence edited by Mark Griffiths and Mikko Joronen sits at the intersection of cultural and political geographies and offers innovative reflections on power, colonialism and anti colonialism in contemporary Palestine and Israel. Organized around the theme of encountering and focusing on the ways violence and struggle are unmade in the encounter between the colonizer and colonized, the essays focus on power relations as they manifest in cultural practices and everyday lives in anti colonial Palestine. Covering numerous sites in Gaza, the West Bank, East Jerusalem and Israel, Encountering Palestine addresses a range of empirical topics from marriage and queer aesthetics to policing, demolition, armament failure and violence. The contributors utilize diverse theoretical frameworks such as hyperreality, settler capitalism, intimate biopolitics and politics of vulnerability to help us better understand the cultural making and unmaking of colonial and anti colonial space in Palestine. Encountering Palestine asks us to rethink how colonialism and power operate in Palestine, the ways Palestinians struggle and the lifeways that constantly encounter, unmake and counter the spaces of colonial violence. **Political Narratives in the Middle East and North Africa** Wolfgang Mühlberger, Toni Alaranta, 2020-02-13 This book discusses the role of political narratives in shaping perceptions of instability and conceptions of order in the Middle East and North Africa (MENA). The authors illustrate how, in times of socio-political turmoil and outbursts of discontent such as the Arab Spring, political entrepreneurs explain and justify their political agendas by complementing hard power solutions with attractive ideas and discursive constructions that appeal to domestic constituencies and geopolitical allies. The book is divided into two parts. The first focuses on non-state actors such as confessional communities and ideological movements who aim to develop narratives that are convincing to their respective polities. It also studies regional powers that seek to determine their positions in a competitive environment via distinctive narrations of order. In part two, the authors investigate the narratives of global players that aim to explain and justify their role in an evolving international order. Understanding Israel/Palestine Eve Spangler, 2019-05-15 The Israeli-Palestinian conflict is the longest on-going hot and cold war in the 20th and 21st century. In this book, the author argues that human rights standards are the key to a just and sustainable solution and that tragically no one has ever made serious use of them in trying to end the conflict. The reader will have a comprehensive view of the conflict.

its relationship to surrounding world events and its similarities to and differences from other conflicts especially those embedded in American race relations
