Watching M*A*S*H, Watching America James H. Benjamin Rolsky,2019-11-12 For decades now

Americans have believed that their country is deeply divided by culture wars waged between religious conservatives and secular liberals. In most instances Protestant conservatives have been cast as the instigators of such warfare while religious liberals have been largely ignored. In this book L. Benjamin Rolsky examines the ways in which American liberalism has helped shape cultural conflict since the 1970s through the story of how television writer and producer Norman Lear galvanized the religious left into action. The creator of comedies such as *All in the Family* and *Maude*, Lear was spurred to found the liberal advocacy group People for the American Way in response to the rise of the religious right. Rolsky offers engaged readings of Lear's iconic sitcoms and published writings considering them as an expression of what he calls the spiritual politics of the religious left. He shows how prime time television became a focus of political dispute and demonstrates how Lear's emergence as an interfaith activist catalyzed ecumenical Protestants, Catholics, and Jews who were determined to push back against conservatism's ascent. Rolsky concludes that Lear's political involvement exemplified religious liberals' commitment to engaging politics on explicitly moral grounds in defense of what they saw as the public interest. An interdisciplinary analysis of the definitive cultural clashes of our fractious times, *The Rise and Fall of the Religious Left* foregrounds the foundational roles played by popular culture, television, and media in America's religious history.

American Militarism on the Small Screen Anna Froula, Stacy Takacs, 2016-03-17 Anna Froula is Associate Professor of Film Studies in the Department of English at East Carolina University, USA. Stacy Takacs is Associate Professor and Director of American Studies at Oklahoma State University, USA.

Comic Drunks, Crazy Cults, and Lovable Monsters David Scott Diffrient, 2022-12-01 Contradictory to its core, the sitcom, an ostensibly conservative tranquilizing genre, has a long track record in the United States of tackling controversial subjects with a fearlessness not often found in other types of programming. But the sitcom also conceals as much as it reveals, masking the rationale for socially deviant or deleterious behavior behind figures of ridicule whose motives are rarely disclosed fully over the course of a thirty-minute episode. Examining a broad range of network and cable TV shows across the history of the medium, from classic working-class comedies such as *The Honeymooners*, *All in the Family*, and *Roseanne* to several contemporary cult series, animated programs, and online hits that have yet to attract much scholarly attention, this book explores the ways in which social imaginaries related to bad behavior have been humorously exploited over the years. The repeated appearance of socially wayward figures on the small screen, from raging alcoholics to brainwashed cult members to actual monsters who are merely exaggerated versions of our own inner demons, has the dual effect of reducing complex individuals to recognizable types while neutralizing the presumed threats that they pose. Such representations not only provide strangely comforting reminders that badness is a cultural construct but also prompt audiences to reflect on their own unspoken proclivities for antisocial behavior, if only in passing.

The Cold War and Entertainment Television Lori Maguire, 2016-08-17 An essential dimension of the Cold War took place in the realm of ideas and culture. While much work exists on cinema, relatively little research has been

conducted on this subject in relation to television despite the latter being a technology and popular cultural form that emerged during this period This book rectifies that absence by examining the impact of the Cold War on entertainment television and underlines the comparative aspect by studying programs from both blocs without forgetting of course the outsize impact of American television Although most of the focus is on the two main protagonists the US and the USSR chapters also consider programming from the UK Czechoslovakia Romania and both East and West Germany This book represents a contribution to the debate about the cultural Cold War through a rigorously comparative analysis of the two blocs For this reason the approach used is thematic The study begins by considering the subject of censorship and then goes on to look at the very particular case of the two Germanys A series of comparative genre studies follow including police and war variety shows and documentaries and docudramas Perhaps surprisingly the similarities are often greater than the differences between television in the two blocs

The Media Were American Jeremy Tunstall, 2008 It has become clear that the U S media are no longer increasingly their grip throughout the globe Asia and the Arab Moslem world is virtually saturated with their own national media output Tunstall produces a well written provocative snapshot at global media today His point of view is relentlessly global he considers the role of the media in the collapse of the Soviet Union the ascendancy of the Brazilian and Mexican soap opera the increasing strength of Bollywood the national cinema output of India as well as the relative decline in influence of US media Importantly Tunstall focuses on both the nation state and the geographical and cultural region as crucial levels in today's mass media Both the United States and the US mass media have now lost their previous moral leadership Lone American control of the world news flow has ceased today rather than Global media we see a world media system comprised of interlocking national regional cultural systems Tunstall's assessment is a wake up call for insular American media consumers

DEROS Vietnam Doug Bradley, 2012-09-07 *DEROS Vietnam* Dispatches from the Air Conditioned Jungle presents a unique fictional montage of the war and postwar experiences of Vietnam support troops Structurally based on Ernest Hemingway's *In Our Time* *DEROS Vietnam* the acronym stands for Date Eligible for Return from Overseas is a riveting collection of 16 short stories and 16 interlinears about the GIs who battled boredom racial tensions the military brass drugs alcohol and occasionally the enemy From cooks and correspondents to clerks and comptrollers *DEROS Vietnam* distills the essence of life for soldiers in the rear during the war and later back home in a divided America Vietnam veteran Doug Bradley a former Army journalist who served in the air conditioned jungle at US Army Headquarters near Saigon in 1970-71 tells these compelling stories with wit intensity and empathy In doing so he provides a gateway to a Vietnam experience that has been largely ignored and whose reverberations still echo across America

Growing Up In A Pennsylvania Steel Town Edward Nebinger, 2012-10-01 The author was inspired to write these memoirs of the years he spent growing up in the Pennsylvania steel town of Bethlehem before the Second World War by the realization that they were a pivotal time in American history While Americans were struggling with the economic

hardships of the Great Depression they never gave up and instead made the best of what they had. Out of their triumph over hardship grew the generation that fought and won the Second World War. The society and culture exemplified by the Pennsylvania steel towns has now vanished but it is hard not to think that while we have gained much as a society we have also lost far too many things worthy of preservation. One of these was the great Bethlehem Steel plant itself, the ruins of which stretch for miles along the Lehigh River. Dominating the ruins are the ghostly remains of the five great blast furnaces preserved to remind people of the greatness that was once Bethlehem Steel and the community that lived in its shadows.
