Willing Seduction English Edition:

Willing Seduction Barbara Kosta, 2012 This fascinating cultural history of *The Blue Angel* provides a new interpretive framework with which to approach this classic Weimar film and suggests that discourses on mass and high culture are integral to the film's thematic and narrative structure. These discourses surface in the relationship between the two main characters: the cabaret entertainer Lola Lola (Marlene Dietrich) and the high school teacher Immanuel Rath (one-time Oscar winner Emil Jannings). In addition to offering insight into some of the major debates that informed the Weimar Republic, this book also demonstrates how similar issues continue to shape the contemporary cultural landscape of Germany, where Dietrich serves as a cultural icon whose symbolic value has contributed significantly to nation building since German unification. **rear cover**

Yiddish Writers in Weimar Berlin Marc Caplan, 2021-01-05 In *Yiddish Writers in Weimar Berlin*, Marc Caplan explores the reciprocal encounter between Eastern European Jews and German culture in the days following World War I. By concentrating primarily on a small group of avant-garde Yiddish writers—Dovid Bergelson, Der Nister, and Moyshe Kulbak—working in Berlin during the Weimar Republic, Caplan examines how these writers became central to modernist aesthetics. By concentrating on the character of Yiddish literature produced in Weimar Germany, Caplan offers a new method of seeing how artistic creation is constructed and a new understanding of the political resonances that result from it. *Yiddish Writers in Weimar Berlin* reveals how Yiddish literature participated in the culture of Weimar-era modernism: how active Yiddish writers were in the literary scene and how German-speaking Jews read descriptions of Yiddish-speaking Jews to uncover the emotional complexity of what they managed to create even in the midst of their confusion and ambivalence in Germany. Caplan's masterful narrative affords new insights into literary form, Jewish culture, and the philosophical and psychological motivations for aesthetic modernism.

[Narrativity, Coherence and Literariness](#) Eva Sabine Wagner, 2020-06-08 The search for the defining qualities of narrative has produced an expansive range of definitions which largely unconnected with each other obscure the notion of narrativity rather than clarifying it. The first part of this study remedies this shortcoming by developing a graded macro model of narrativity which serves three aims. Firstly, it provides a structured overview of the field of narrative elements and processes. Secondly, it facilitates the classification of narratological approaches by locating them on different stages of narrativity. Finally, it focuses attention on narrative dynamics as interpretative processes by which readers seek to produce narrative coherence. The second part of this study identifies three different narrative dynamics which characterise Laclos's *Dangerous Connections*, Kafka's *Castle*, and Toussaint's novels. Wagner bases her analyses of these dynamics not only on the texts themselves but also on the ways in which literary scholars imbue the texts with narrative coherence. This book provides a long overdue systematisation of the jumbled field of theories of narrativity and opens new perspectives on the difficult relationship between narrative theory and

Women Writing War Katharina von Hammerstein, Barbara Kosta, Julie Shoults, 2018-08-06 Recent scholarship has broadened definitions of war and shifted from the narrow focus on battles and power struggles to include narratives of the homefront and private sphere To expand scholarship on textual representations of war means to shed light on the multiple theaters of war and on the many voices who contributed to were affected by and or critiqued German war efforts Engaged women writers and artists commented on their nations imperial and colonial ambitions and the events of the tumultuous beginning of the twentieth century In an interdisciplinary investigation this volume explores select female authored German language texts focusing on German colonial wars and World War I and the discourses that promoted or critiqued their premises They examine how colonial conflicts contributed to a persistent atmosphere of *Kriegsbegeisterung* war enthusiasm that eventually culminated in the outbreak of World War I or a *Kriegskritik* criticism of war that resisted it The span from German colonialism to World War I brings these explosive periods into relief and challenges readers to think about the intersection of nationalism violence and gender and about the historical continuities and disruptions that shape such events
