

packaging. The design tool has the ability to import and export WSDL, and can read from and publish to UDDI repositories.

- **Enterprise-Wide Deployment Architecture** – Oracle/AS ProcessConnect provides a number of new features that improve the products ability to meet the performance, manageability, and scalability requirements of large-scale enterprise environments. Key features include:
  - **Hub and Spoke Topology** – Oracle/AS ProcessConnect supports a hub and spoke topology. A single hub may support many spokes – applications, B2B providers, and web services. Spokes (Adapters) may optionally run on hardware outside of the application server.
  - **Imagery / Consistency** – the run-time system provides extended new features to ensure the consistency and imagery of the integration system. A central “Coordinator” orchestrates all integration activity to ensure consistency of business processes and data moving through the system. The “Coordinator” is transactional to ensure the imagery of data and processes.

## 1.2 Oracle Workflow

Oracle/AS (9.0.4) introduces a number of new Workflow features to provide simplified configuration and management.

**Enterprise Manager Integration** – In Oracle/AS (9.0.4), the Workflow Manager is integrated with Oracle Enterprise Manager (OEM). The Workflow Manager delivers a “dashboard” style of interface accessible through a URL, allowing system administrators to manage Oracle Workflow from a single console.

The Workflow Manager allows system administrators to monitor Workflow system servers, such as background engines, the Notification Mather, agent listeners, queue propagators, and gathering obsolete Workflow data. Administrators can also monitor work item processing by viewing the distribution of all work items by status and drilling down to additional information. Additionally, they can monitor event message processing for local Business Event Systems agents by viewing the distribution of event messages by status. With this ability to monitor work items and event messages, a system administrator can identify possible bottlenecks easily.

**Notification Master** – The Notification Master provides the ability to notify individuals and groups electronically. Notifications can be delivered via e-mail. In 9.0.4 the Notification Master has been redesigned with a more wizard based UI, to run as a multi-threaded server application for improved configuration, management and performance.

**Master Parameters** – The setup of the Notification Master involves configuring system parameters, such as the outbound e-mail agent name, the name of the folder to queue inbound e-mails, the protocol of the inbound e-mail server, the password for the inbound e-mail server, and so on. The configuration parameters are as

## **Oracle9i Application Server Administrators Guide:**

**Oracle 9i Application Server Portal Handbook** Steve Vandivier, Kelly Cox, 2001-11 Build, deploy and maintain self service enterprise portals with Oracle9iAS Portal the next generation of Internet database software. Includes 3 CD ROMs containing the official Oracle 9i AS portal product. It uses examples to teach the reader Web development design techniques to improve application efficiency. A clear methodology for Web application development walks the reader through all phases of an Oracle 9i AS portal project. Hand-on examples, simple self-help tutorials and case studies are provided throughout the book. *Expert Oracle9i Database Administration* Sam Alapati, 2008-01-01 This is the only real Oracle9i database administration book in the market. This 1,000 page book enables a beginner or intermediate level Oracle DBA or Oracle developer/manager to master the art of building and managing complex Oracle9i databases. *Expert Oracle9i Database Administration* is thorough in covering all aspects of the 9i database and includes a UNIX primer as well as an introduction to SQL and PL/SQL. Author Sam Alapati covers the entire spectrum of the new Oracle9i RDBMS software and clearly explains how to use all of its powerful features. Currently there is no one book that includes the necessary UNIX administration, Windows NT management and SQL backgrounds and the necessary database administration principles. This book fills that gap well by providing all the necessary material in one comprehensive volume. It takes several courses as well as mastery of several Oracle manuals to become a proficient database administrator. Readers will be able to become expert Oracle Database administrators by using this book. *Expert Oracle9i Database Administration* is designed to be the most complete Oracle9i database text available. **Oracle Administration and Management** Michael R. Ault, 2002-10-23 Oracle is the leading database worldwide providing companies with fast access to critical business data. *Oracle Administration and Management* shows database administrators and managers how to keep Oracle databases running reliably and at peak performance. With the help of numerous real-world examples and scenarios you'll gain valuable insight into all phases of Oracle database administration and management. From the initial installation and daily maintenance to backup and recovery procedures you'll learn everything you need to know to become a successful Oracle DBA. [Oracle9i UNIX Administration Handbook](#) Donald K. Burleson, 2002 The definitive book covering Oracle databases in UNIX environments, the fastest growing segment of the Oracle database market. This guide contains proven techniques and UNIX scripts that can be used to perform dozens of UNIX-related tasks. [Database Systems](#) S. K. Singh, 2011 The second edition of this bestselling title is a perfect blend of theoretical knowledge and practical application. It progresses gradually from basic to advanced concepts in database management systems with numerous solved exercises to make learning easier and interesting. New to this edition are discussions on more commercial database management systems. **Oracle 9i** Michael Abbey, Michael J. Corey, Ian Abramson, 2002 The Oracle server Database objects, Oracle enterprise manager, Distributed computing, Forms and reports overview, Partitioning data. **Oracle PL/SQL Language** Steven Feuerstein, Bill Pribyl, Chip Dawes, 2003 This updated

edition describes features available in Oracle9i and provides a quick reference that summarizes PL SQL syntax for every developer who uses PL SQL for database programming
