The Singapura Ray Wigley, 2010-10-22. After encountering a pair of Singapura Cats at my partner's home in 2004 I thought they were beautiful and very active cats. Fascination then took over. They look like miniature cougars or mountain lions. They had also only been around for about 10 years in UK but much longer in the States. It is strange then that to the best of my knowledge no book existed about them giving any in-depth information on these delightful cats. So here it is my attempt to present this cat to the masses.

About cats Nicolae Sfetcu, 2014-04-29. A guide for the cat lovers about the cat behavior, cat attractants, cat breeds, cat health and food, type of cats, cats as pets, fictional cats, films about cats, historical cats. A book full with pictures of the most important cat breeds, tips and advice for cat behavior, cat diseases and how to take care of the cats. The cat, also called the domestic cat or house cat, is a small feline, carnivorous mammal of the subspecies *Felis silvestris catus*. Its most immediate pre-domestication ancestor is the African wild cat *Felis silvestris lybica*. The cat has been living in close association with humans for at least 3,500 years; the Ancient Egyptians routinely used cats to keep mice and other rodents, mostly rats, away from their grain and also believed that cats were sacred to the goddess Bastet. The history of the domestic cat may stretch back even further: as 8,000-year-old bones of humans and cats were found buried together on the island of Cyprus.
