**The Strong Eye of Shamanism** Robert E. Ryan, 1999 An exploration of shamanism and the archetypal symbolism that sits at the foundation of all human life Not just an academic work Helps the reader experience the actual mindset of the shaman Presents a cohesive view of the recurrent patterns of symbolism and visionary experience that underlie all religion The human psyche contains archetypal patterns largely lost to contemporary society but which shamans have employed for over 30 000 years to gain access to the spiritual world Shamanic symbols both affect and reflect these durative patterns that exist with uncanny similarity in civilizations separated by expanses of time and distance The Strong Eye of Shamanism draws together the many facets of the art of shamanism presenting a cohesive view of the recurrent patterns of symbolism and visionary experience that underlie its practice The strong eye of the title refers to the archetypal symbolism that sits at the foundation of all human life whether in Paleolithic caves or today's temples The author asserts that society has become separated from the power of those symbols that lead us into deeper understanding of our spirituality In today's world of splintered psyches a world in which people are in search of their souls shamanism survives as an age old technology of soul recovery a living Rosetta stone that reminds us of the shared foundation that exists beneath even the most radically different perspectives Through its study of shamanism archetypal psychology and symbolism The Strong Eye of Shamanism encourages individuals and society to look inward and remember that the deepest forms of awareness begin with the knowledge that the answers reside within us

**Mysticism** Livia Kohn, 2020-10-06 Did Chinese mysticism vanish after its first appearance in ancient Taoist philosophy to surface only after a thousand years had passed when the Chinese had adapted Buddhism to their own culture This first integrated survey of the mystical dimension of Taoism disputes the commonly accepted idea of such a hiatus Covering the period from the Daode jing to the end of the Tang Livia Kohn reveals an often misunderstood Chinese mystical tradition that continued through the ages Influenced by but ultimately independent of Buddhism it took forms more various than the quietistic withdrawal of Laozi or the sudden enlightenment of the Chan Buddhists On the basis of a new theoretical evaluation of mysticism this study analyzes the relationship between philosophical and religious Taoism and between Buddhism and the native Chinese tradition Kohn shows how the quietistic and socially oriented Daode jing was combined with the ecstatic and individualistic mysticism of the Zhuangzi with immortality beliefs and practices and with Buddhist insight meditation mind analysis and doctrines of karma and retribution She goes on to demonstrate that Chinese mysticism a complex synthesis by the late Six Dynasties reached its zenith in the Tang laying the foundations for later developments in the Song traditions of Inner Alchemy Chan Buddhism and Neo Confucianism **New Age Religion and Western Culture**

Wouter J. Hanegraaff, 2018-09-24 Recent years have seen a spectacular rise of the New Age movement and an ever increasing interest in its beliefs and manifestations This fascinating work presents the first ever comprehensive analysis of New Age Religion and its historical backgrounds thus providing the reader with a means of orientation in the bewildering variety of the movement Making extensive use of primary sources the author thematically analyses New Age beliefs from the perspective of the study of religions While looking at the historical backgrounds of the movement he convincingly argues that its foundations were laid by so called western esoteric traditions during the Renaissance Hanegraaff finally shows how the modern New Age movement emerged from the increasing secularization of those esoteric traditions during the 19th century This ground breaking publication is compulsive reading for all those involved or interested in the New Age movement

*Meditation* Deane H. Shapiro, Jr., 2008-06-01 Despite the increase in meditation studies the quality remains variable many of them are trivial and most remain unreplicated Research on meditation has been plagued by insubstantial theorizing global claims and the substitution of belief systems for grounded hypotheses Meditation punctures some of the myths about meditation while retaining a place of value for meditation as a normal human function In each chapter includes discussion of the major questions addressed followed by a detailed critique of important theoretical clinical and research issues In several instances the reader may find that questions seem to beget questions research bearing upon certain issues may be contradictory or not yet of sufficient thoroughness In these cases the author suggests the specific future research necessary to resolve the questions posed so that claims about meditation are justified and which are not The profession of psychology itself is and has been in a polarized debate between the practitioners and the experimentalists The latter accuse the former of being soft non empirical non scientific while practitioners accuse the experimentalists of conducting research which is essentially irrelevant to human concerns This approach provides a bridge between research and clinical practice Meditation provides an encompassing survey of the topic nearly forty tables and figures sample questionnaires evaluations and programs and a detailed overview of a controversial field Shapiro separates self regulation with self delusion to outline questions and possible answers Deane H Shapiro Jr is professor emeritus of Psychiatry Human Behavior School of Medicine at the University of California Irvine He is internationally recognized as one of the world s foremost authorities on the clinical therapeutic and medical health care applications of meditation and his research and writing on meditation and self control have been requested by universities and medical schools throughout the world **The Journal of Transpersonal**
