The keys listed above are the default keyboard shortcuts. If you don't like the way things will be, you can change the key used for each function. To do so:

- Choose Options from the Toolbar Options menu.
- Select Keyboard Keys.
- Click on the shortcut you wish to change, then press the new key you want to assign to that particular function.

Be careful! Once you have clicked on a shortcut, the next key you press is assigned to that function — it does not have to read the function. If you desire a reminder, just click on the shortcut again or assign a different key to it.
