*Romantic Representations of British India* Michael J Franklin, 2006-09-27 Students and academics involved with literary studies and history will find this exploration of the British cultural understanding of India extremely useful The essays within this collection cover a wide range of topics and are written by an impressive troupe of contributors including P J Marshall Anne Mellor and Nigel Leask Enlightening Romanticism, Romancing the Enlightenment Professor Miriam L Wallace, 2013-04-28 As eighteenth century scholarship expands its range and disciplinary boundaries such as Enlightenment and Romanticism are challenged novels published during the rich period from 1750 to 1832 have become a contested site of critical overlap In this volume scholars who typically write under the rubric of either the long eighteenth century or Romanticism examine novels often claimed by both scholarly periods This shared enterprise opens new and rich discussions of novels and novelistic concerns by creating dialogue across scholarly boundaries Dominant narratives critical approaches and methodological assumptions differ in important ways but these differences reveal a productive tension Among the issues engaged are the eighteenth century novel s development of emotional interiority including theories of melancholia the troubling heritage of the epistolary novel for the 1790s radical novel tensions between rationality and romantic affect issues of aesthetics and politics and constructions of gender genre and race Rather than positing a simple opposition between an eighteenth century Enlightenment of rationality propriety and progress and a Romantic Period of inspiration heroic individualism and sublime emotionality these essays trace the putatively Romantic in the early 1700s as well as the long legacy of Enlightenment values and ideas well into the nineteenth century The volume concludes with responses from Patricia Meyer Spacks and Stephen C Behrendt who situate the essays and elaborate on the stakes **Romantic Revolutions** Kenneth R. Johnston, 1990 **The Nature and Nurture of Love** Marga Vicedo, 2013-05-16 The notion that maternal care and love will determine a child s emotional well being and future personality has become ubiquitous In countless stories and movies we find that the problems of the protagonists anything from the fear of romantic commitment to serial killing stem from their troubled relationships with their mothers during childhood How did we come to hold these views about the determinant power of mother love over an individual s emotional development And what does this vision of mother love entail for children and mothers In *The Nature and Nurture of Love* Marga Vicedo examines scientific views about children s emotional needs and mother love from World War II until the 1970s paying particular attention to John Bowlby s ethological theory of attachment behavior Vicedo tracks the development of Bowlby s work as well as the interdisciplinary research that he used to support his theory including Konrad Lorenz s studies of imprinting in geese Harry Harlow s experiments with monkeys and Mary Ainsworth s observations of children and mothers in Uganda and the United States Vicedo s historical analysis reveals that important psychoanalysts and animal researchers opposed the project of turning emotions into biological instincts Despite those substantial criticisms she argues that attachment theory was paramount in

turning mother love into a biological need This shift introduced a new justification for the prescriptive role of biology in human affairs and had profound and negative consequences for mothers and for the valuation of mother love

A Compulsion for Antiquity Richard H. Armstrong,2006 If psychoanalysis is the return of repressed antiquity distorted to be sure by modern

desire yet still bearing the telltale traces of the ancient archive then would not our growing distance from the archive of antiquity also imply that we are in the process of losing our grip on psychoanalysis itself as Freud conceived it from Chapter 1 As he developed his striking new science of the mind Sigmund Freud had frequent recourse to ancient culture and the historical disciplines that draw on it A Compulsion for Antiquity fully explores how Freud appropriated figures and themes from classical mythology and how the theory and practice of psychoanalysis paralleled contemporary developments in historiography archaeology philology and the history of religions Drawing extensively from Freud's private correspondence and other notes and documents Richard H Armstrong touches on Freud's indebtedness to Sophocles and the Oedipus complex his interest in Moses and the Jewish religion and his travels to Athens and Rome Armstrong shows how Freud turned to the ancient world to deal with the challenges posed by his own scientific ambitions and how these lessons influenced the way he handled psychic evidence and formulated the universal application of what were initially isolated clinical truths Freud's narrative reconstructions of the past also related to his sense of Jewishness linking the historical trajectory of psychoanalysis with contemporary central European Jewish culture Ranging across the breadth of Freud's work A Compulsion for Antiquity offers fresh insights into the roots of psychoanalysis and fin de siècle European culture and makes an important contribution to the burgeoning discipline of mnemohistory

**View of the State of Europe During the Middle Ages** Henry Hallam, 1824 *Friedrich Schlegel and the Emergence of Romantic Philosophy* Elizabeth

Millán, 2012-02-01 This book addresses the philosophical reception of early German Romanticism and offers the first in depth study in English of the movement's most important philosopher Friedrich Schlegel presenting his philosophy against the background of the controversies that shaped its emergence Elizabeth Millán Zañabert begins by distinguishing early German Romanticism from classical German Idealism under which it has all too often been subsumed and then explores Schlegel's romantic philosophy and his rejection of first principles by showing how he responded to three central figures of the post-Kantian period in Germany Jacobi Reinhold and Fichte as well as to Kant himself She concludes with a comprehensive critique of the aesthetic and epistemological consequences of Schlegel's thought with special attention paid to his use of irony *The Rationality of Love* Hichem Naar, 2022 Hichem Naar argues for the rationality of love it belongs to the class of responses such as belief and action that are subject to norms of justification and rationality There are reasons to love others reasons provided by the unique value of each individual

**Neoclassical Satire and the Romantic School 1780-1830** Rolf P. Lessenich,2012-08-15 Romanticism was not only heterogeneous and disunited It also had to face the counter movements of the Enlightenment and Augustan Neoclassicism which were still gaining momentum in the decades around the French Revolution Neoclassicists regarded Romanticism as a heretical amalgam of dissenting new schools threatening the monopoly of the Classical Tradition Acrimonious debates in aesthetics and politics were conducted with the traditional strategies of the classical ars disputandi on both sides Under the duress of the heaviest satirical attacks Romanticism began to gradually see itself as one movement giving rise to the problematic opposition of Classical with Romantic This construction however was indispensable for the clarification of different positions among the hubbub of conflicting voices It has also proved critical in literary and cultural studies The Classical Tradition emerges as an ongoing event from Greek and Latin antiquity via Neoclassicism and Romanticism to our time      **Love's Knowledge** Martha C. Nussbaum,1990 This volume brings together Nussbaum's published papers on the relationship between literature and philosophy especially moral philosophy The papers many of them previously inaccessible to non specialist readers deal with such fundamental issues as the relationship between style and content in the exploration of ethical issues the nature of ethical attention and ethical knowledge and their relationship to written forms and styles and the role of the emotions in deliberation and self knowledge Nussbaum investigates and defends a conception of ethical understanding which involves emotional as well as intellectual activity and which gives a certain type of priority to the perception of particular people and situations rather than to abstract rules She argues that this ethical conception cannot be completely and appropriately stated without turning to forms of writing usually considered literary rather than philosophical It is consequently necessary to broaden our conception of moral philosophy in order to include these forms Featuring two new essays and revised versions of several previously published essays this collection attempts to articulate the relationship within such a broader ethical inquiry between literary and more abstractly theoretical elements      **Sexuality and the Culture of Sensibility in the British Romantic Era** C. Nagle,2007-11-12 This is the first study to fully trace the influence

of Sensibility on British Romanticism Sensibility continually found new forms of expression in the late Eighteenth and early Nineteenth century Nagle explores how it coexisted and intermingled with Romanticism and revises the traditional narratives of literary periodization of this era **Browning, Victorian Poetics and the Romantic Legacy** Britta Martens, 2011

Taking an original approach to Robert Browning's poetics Britta Martens focuses on a corpus of relatively neglected poems in Browning's own voice in which he reflects on his poetry his self conceptualization and his place in the poetic tradition She analyzes his work in relation to Romanticism Victorian reactions to the Romantic legacy and wider nineteenth century changes in poetic taste to argue that in these poems as in his more frequently studied dramatic monologues Browning deploys varied dramatic methods of self representation often critically and ironically exposing the biases and limitations of the seemingly authoritative speaker Browning The poems thus become devices for Browning's detached evaluation of his own and of others poetics an evaluation never fully explicit but presented with elusive economy for the astute reader to interpret The confrontation between the personal authorial voice and the dramatic voice in these poems provides revealing insights into the poet's highly self conscious conflicted and sustained engagement with the Romantic tradition and the diversely challenging reader expectations that he faces in a post Romantic age As the Victorian most rigorous in his rejection of Romantic self expression Browning is a key transitional figure between the sharply antagonistic periods of Romanticism and Modernism He is also as Martens persuasively demonstrates a poet of complex contradictions and an illuminating case study for addressing the perennial issues of voice authorial authority and self reference Publisher description *Specimens of the British Poets* Thomas Campbell, 1841
