Monitor noted that Schulze has both the gift of an architectural historian able to render Mies's building innovations and that of a biographer able to paint the humanity and shortcomings of the man. Newsweek called it a revelation. Now this biography of the iconic modernist architect and designer has been extensively updated, providing an even more enlightening and intimate portrait of a man who helped to create the twentieth-century world. This excellent revised edition has 138 illustrations, incisive descriptions of Mies's innovative creations, and a fascinating account of his Pyrrhic victory in a lawsuit against his disaffected client Edith Farnsworth. Edmund de Waal: I learned something new on every beautifully illustrated page. Neil MacGregor: A fascinating book about a long forgotten world. Hadley Freeman: Through a series of striking case studies, this revelatory book explores the world of Jewish country houses, their architecture and collections, and the lives of the extraordinary men and women who created, transformed, and shaped them. Country houses are powerful symbols of national identity, evoking the glamorous world of the landowning aristocracy. Jewish country houses, properties that were owned, built, or renewed by Jews, tell a more complex story of prejudice and integration, difference and connection. Many had spectacular art collections and gardens. Some were stages for lavish entertaining, while others inspired the European avant-garde. A few are now museums of international importance; many more are hidden treasures, and all were beloved homes that bear witness to the remarkable achievements of newly emancipated Jews across Europe and to a dream of belonging that mostly came to a brutal end with the Holocaust. Beautifully illustrated with historical images and a new body of work by the celebrated photographer H. L. Binet, this book is the first to tell that story from the playful historicism of the National Trust's Waddesdon Manor in Buckinghamshire to the modernist masterpiece that is the Villa Tugendhat in the Czech city of Brno and across the Atlantic to the United States, where American Jews infused the European country house tradition with their own distinctive concerns and experiences Ludwig Mies van der Rohe Jean-Louis Cohen, 2018-07-23 Ludwig Mies van der

Ernst L. Freud, Architect Volker M. Welter, 2011-10-01. Ernst L. Freud 1892-1970 was a son of Sigmund Freud and the father of painter Lucian Freud and the late Sir Clement Freud, politician and broadcaster. After his studies in Munich and Vienna where he and his friend Richard Neutra attended Adolf Loos's private Bauschule, Freud practiced in Berlin and after 1933 in London. Even though his work focused on domestic architecture and interiors, Freud was possibly the first architect to design psychoanalytical consulting rooms, including the customary couches a subject dealt with here for the first time. By interweaving an account of Freud's professional and personal life in Vienna, Berlin and London with a critical discussion of selected examples of his domestic architecture, interior designs and psychoanalytic consulting rooms, the author offers a rich tapestry of Ernst L. Freud's world. His clients constituted a Who's Who of the Jewish and non-Jewish bourgeoisie in 1920s Berlin and later in London, among them the S. Fischer publisher family, Melanie Klein, Ernest Jones, the Spenders and Julian Huxley. While moving within a social class known for its cultural and avant-garde activities, Freud refrained from spatial formal or technological experiments. Instead, he focused on creating modern homes for his bourgeois clients.
