Modern taps are fitted with just one tap and are responsible for supplying water to our homes as well as playing a major role in water saving. Available in a variety of styles, including dual lever or single lever, most new kitchen taps also come fitted with different accessories such as sprayer attachments, shower heads and generally, these come equipped directly in the tap (Fig. 2-3). However, providing the tap and mounted tap when fixtures are installed, a separate lever or tap (the handle) is also required to control the flow and is mounted on the side, pointing in various directions (Fig. 2-4) (see also <http://www.hunterdouglas.com>).
