Explore Science Technology Engineering and Maths with this jam-packed collection of fun-filled experiments you can do at home. Get immersed in exciting STEM activities that will inspire every budding home scientist, technology fan, young engineer, and mathematician. Witness your very own erupting volcano, blow sky-high, build a sturdy sandcastle, and reveal the incredible technology of construction materials. Design a wind-up car and discover your inner engineer, and test your knowledge of maths by making a marble run. *Great Science Projects* features an enormous collection of incredible, tried and tested STEM experiments. With over 50 exciting experiments, children aged 9 will love getting involved in activities like making a wormery, constructing a spaghetti tower, mixing gels to make air fresheners, creating mathematically precise shadow puppets, and freezing icy orbs. This exciting book of experiments for children includes 50 fun-packed educational experiments to get kids inspired by the STEM fields: Science, Technology, Engineering, and Maths. A huge variety of activities using easily sourced materials and ranging from quick and easy to more challenging to suit different ages, interests, and attention spans. Big beautiful introductory shots for each experiment will engage and excite young readers. Easy to understand, step-by-step instructions throughout, accompanied by clear, helpful photography. *Great Science Projects* is a fantastic way for teachers and parents to help inspire and develop their kids' interest in STEM subjects. Featuring beautiful photography and engaging illustrations, accompanied by 'How it works' and 'Real world' explanations, young readers can begin to understand the principles of STEM behind each and every step of an experiment. **Activities Linking Science with Math, K-4** John Eichinger, 2009-05-15. Science does not exist in a vacuum and therefore shouldn't be taught that way. In that spirit, *Activities Linking Science With Math K 4* is a hands-on guide for preservice and inservice elementary school teachers who want to connect science instruction with other areas of study, including visual arts, social sciences, language arts, and especially math. Striking a Balance Nancy L. Cecil, Albert Lozano, Mae Chaplin, 2020-05-04. Now in its sixth edition, *Striking a Balance* clearly illustrates how to create a comprehensive early literacy program that places direct skills instruction within the context of rich and varied reading and writing experiences. Text discussions, dynamic activities, and valuable appendices provide a variety of effective instructional resources selected based on research and teacher testimonials. The sixth edition incorporates recent updates to national and state standards as well as expanded sections on working with English language learners and students with special needs while maintaining the book's essential features: classroom vignettes, discussion questions, field-based activities, a student website, and study guide. An essential resource for early literacy instructors, this textbook's practical approach fundamentally demonstrates how children develop authentic literacy skills through a combination of direct strategy instruction and motivating contexts. *Maths Lab* DK, 2021-06-10. Explore the exciting world

of numbers Whether you re a maths geek or prefer practical hands on projects this ebook combines creativity with calculations You don t have to be a genius or even need a calculator each of the super fun make and do projects in this ebook comes with simple step by step photographs and instructions that will help you whip up a cool maths creation Perfect for kids who are interested in STEM science technology engineering and maths Maths Lab features activities that cover many aspects of maths including numbers measurement and geometry You ll combine art and maths by drawing impossible objects create beautiful patterns to make a times table dreamcatcher and perfect the ratio for making refreshing fruit drinks Throughout the ebook explanatory boxes show you how the maths works and how the skills you ve learned can be used in the real world Maths Lab is the perfect package for curious kids who are interested in taking the mystery out of maths
