Test-Enhanced Learning Kristian Still,2023-02-02 Written by Kristian Still Test Enhanced Learning A practical guide to improving academic outcomes for all students is an informative guidebook that explores the wealth of evidence behind and the benefits of test enhanced learning spaced retrieval practice and personalisation Detailing the most up to date research into improving learning and retention it takes us on a journey into test enhanced learning spaced retrieval practice motivation metacognition and personalisation In so doing the book provides a blueprint for all teachers and schools to improve the academic outcomes of their students and to achieve this in ways that improve the motivation of learners and reduces the workload for teachers Kristian Still has been developing these ideas with his classes for many years and has achieved considerable success in terms of the direct learning gains and improved assessment grades of his pupils and the indirect gains in students growing confidence in lessons with a wider group of pupils contributing to class and improved classroom behaviour Consequently students are finding greater comfort in class and experiencing less pressure or underpreparedness when a question is asked The book is supported by the free Remembermore app which uses digital flashcards as an aid to deliver the learning gains of personalised spaced retrieval practice providing teachers with insights into the effectiveness of their own teaching It also contains a number of practical case studies from teachers using these techniques and the app to produce great results in their schools Spaced retrieval practice is a highly effective but counter intuitive revision technique in that it involves forgetting and relearning knowledge Test Enhanced Learning provides a blueprint for motivating students to adopt this technique in favour of seemingly easier but less effective techniques such as re reading Moreover the Remembermore app does most of the convincing for you It is a tool not only to provide the flashcards for retrieval practice but also to demonstrate the power of the technique to pupils The book

goes a step beyond mere retrieval practice offering a fresh approach to test enhanced learning both pretesting and post testing supported by real classroom based routines that have been tried and tested by both Primary and Secondary teachers across a range of subjects Exploring the research behind test enhanced learning it reveals that both pretesting and post testing retrieval practice offers improved memorisation and secures long term learning Suitable for all teachers in all settings

Individuals with Disabilities Education Act Nila L. Haworth, 2004 A careful examination of the evolutions of Curriculum as Political Text and the Individuals with Disabilities Education Act of 1973 disclosed certain contributory facets to teacher disillusionment in an inclusive high school environment A diminishing sense of professional self efficacy self empowerment and optimism stemmed primarily from the political machinations of a hidden curriculum and a misapplication of an inclusive classroom practice The process used to arrive at these conclusions was heuristic research wherein outward perceptions and realities assumed meaning vis a vis inward reflection and introspection disclosing an unequivocal new awareness illumination and enlightenment Such personal enrichment however arrived only after a journey of self unfolded through the three phases of heuristic research Immersion Acquisition and Realization First and foremost this was a human study that examined specific elements contributing to teacher disillusionment During Immersion disquieting professional life experiences formed the preliminary data through which and from which was extrapolated an essence or meaning that ultimately assumed form through autobiographical narrative The second phase Acquisition included input from a variety of sources ranging from texts literature and discourses to federal legislation and law review to human subjects

studies What was acquired then scrutinized was new knowledge relative to disillusionment in the inclusive classroom especially with regard to curriculum as political text Finally the Realization Phase aggregated and synthesized the components disclosed in Immersion and Acquisition which led to a dynamic coming together of seemingly disparate elements ultimately affirming a sense of professionalism and validating search of self
