Police

Reform from the Bottom Up Monique Marks, David Sklansky, 2014-04-10 What role can and should police unions and rank and file officers play in driving and shaping police reform Police unions and their members are often viewed as obstructionist and conservative not as change agents But reform efforts are much more likely to succeed when they are supported by the rank and file and line officers have knowledge skills and insights that can be invaluable in promoting reform Efforts to involve police unions and rank and file officers in police reform are less common than they should be but they are increasing and there is a good deal to learn about policing police reform and participatory management from the efforts made to date In this pioneering volume an international cross disciplinary collection of scholars and police unionists address a range of neglected questions both empirical and theoretical about the place of police officers themselves in the process of reform what it has been and what it could be They provide a fresh view of police reform as occurring from the bottom up rather than the top down This book will be highly useful for practitioners and scholars who have a serious interest in the possibilities and limits of police organizational change This book is based on special issues of *Police Practice and Research* and *Policing and Society* What is Policing? P.A.J Waddington, Martin Wright, 2010-03-31 This text provides an accessible up to date and thought provoking introduction to policing for all those undertaking degrees and foundation degrees It aims not only to inform students and prepare them for their course but also to expose them to some of the challenges they will face as they begin their studies and or policing careers This book is the essential foundation for the Policing Matters series explaining what policing is what the police do the context for policing and what are the main issues it faces and challenges it poses

A History of Police and Masculinities, 1700-2010 David Barrie, Susan Broomhall, 2012-07-26 This unique collection brings together leading international scholars to explore how ideologies about masculinities have shaped police culture policy and institutional organization from the eighteenth century to the present day It addresses an under researched area of historical inquiry providing the first in depth study of how gender ideologies have shaped law enforcement and civic governance under old and new police models tracing links continuities and changes between them The book opens up scholarly understanding of the ways in which policing reflected sustained embodied and enforced ideas of masculinities in historic and modern contexts as well as how conceptions of masculinities were and continue to be interpreted through representations of the police in various forms of print and popular culture The research covers the UK Europe Australia and America and explores police typologies in different international and institutional contexts using varied approaches sources and interpretive frameworks drawn from historical and criminological traditions This book will be essential reading for academics students and those interested in gender culture police and criminal justice history as well as police practitioners Police Custody Layla Skins, 2012-08-06 Police custody acts as an important gateway to the criminal justice process Much is at stake here for both staff and suspects as what happens in police custody can have important consequences further down the line This book offers a timely contribution to research on police custody which has been largely neglected for the last decade and it is

the first to examine the growing role given to civilians employed by the police or by private security companies within police custody areas The book draws on a mixed method study of two custody areas one publicly run and the other largely privately run This empirical analysis explores anew suspects experiences of police custody from arrest to charge including their access to due process rights such as phone calls legal advice and detention reviews as well as shedding light on the hitherto unexplored working relationships between the police civilian police staff public and private legal advisers doctors appropriate adults and drug workers These findings on the police custody process are used to examine pertinent socio legal and theoretical matters connected to due process the role of the police in policing as well as procedural justice and legitimacy The book integrates issues which are topical and of utmost empirical theoretical and political significance meaning that it is likely to have a broad appeal to students academics practitioners and policy makers with an interest in the criminal justice process policing and the sociology of law Zero Tolerance Policing Maurice Punch, 2007-11-28 AGREED WITH AUTHOR What is policing about and who defines it This report examines these key issues by exploring the notion of zero tolerance and its application in different settings Following its introduction in New York and the seemingly dramatic reduction in crime zero tolerance policing was taken up in a number of other countries including the UK and the Netherlands This report examines that process It argues that this policy was in fact nothing more than a return to old style crime control policing While it did foster the swift analysis of crime patterns and more assertive policing of public places it could lean towards repression and demonising of certain groups Examining the negative responses of leading police officers and the policy s debatable impact on crime the author concludes that zero tolerance in the UK and the Netherlands was more of a populist political and media creation than a coherent policy This report is far more than an authoritative analysis of zero tolerance It is a valuable source for entering the debate about the big picture in policing that many stakeholders now wish to see The approachable style of Zero tolerance policing makes it ideal for students academics police practitioners and the lay reader to enter that debate Maurice Punch is Visiting Professor at the Mannheim Centre for Criminology London School of Economics and Political Science and also teaches on criminological programmes at King s College London He has worked at universities in the UK US and the Netherlands and has published widely on corporate crime and police corruption

Danger in Police Culture Gráinne Perkins, 2023-12-11 Through ethnographic research in South Africa this book explores the lived experiences of police navigating danger and death **Inside an African Police Force** Jude Kagoro, 2022-10-18 The book discusses police practices in Uganda which are understood as fluid and reflective of the socio political cognitive and discursive contexts within which the Uganda Police Force UPF exist The author was immersed in the UPF both as an ethnographer and a consultant The book demonstrates how police officers navigate clashes between personal interests and those of the UPF shedding more light on the divergences and convergences between policies in theory and policies in practice It contributes to the literature on police research especially to our understanding of policing and the

anthropology of the state in Africa It highlights that the Ugandan police engages in political policing and its role is stretched beyond its legal mandate The target audience is twofold first academics interested in police studies and the undercurrents of interface bureaucracies in Africa Second practitioners focused on improving state and police services in African contexts

Albrecht, 2021-10-01 This edited volume examines the experiences and the roles of the police deployed on peacekeeping and intervention missions in Afghanistan Bougainville Cyprus Haiti Kosovo Namibia Solomon Islands Timor Leste and Ukraine Despite the extensive literature that has examined the role of the military in peacekeeping and intervention operations little literature or information that investigates the role and the work of the police or the methods that they use to assist in the reformation of local police is available This book provides an overview of the history and role of the police in peacekeeping missions and discusses the principle factors of police reform and development in post conflict nations It includes case studies assessing the background of the conflict and the police deployments as well as their role contributions and achievements Including two in depth surveys of police officer experiences on peacekeeping missions this volume will be of great value to policing researchers and law enforcement leadership police historians and students and researchers of post conflict development **The Politics of Police**

Governance Ali Malik, 2024-03-28 Making a unique contribution to the scholarship on democratic policing this book adapts the concept of epistocracy to explore the role of knowledge and expertise in police governance and accountability A rigorous empirical analysis of the Scottish police governance arrangements following reform in 2013 is complemented with examples from other liberal democracies situating the Scottish context in wider debates on democratic policing localism and the operational independence doctrine The book provides a framework for knowledge based working practices showing how principles of democratic policing such as equity and responsiveness may be achieved in practice
