The Politically Incorrect Guide™ to CAPITALISM

A part of the bestselling **P. I. G.** series

*You thought you knew about dollars
and cents. But did you know:*

-  Capitalism defeats racism, improves the environment, and is essential to a free society
-  Cheap imports don't destroy jobs
-  The "robber barons" actually helped the poor (more than government has ever done)
-  The 1980s weren't a "decade of greed"
-  Athletes deserve their high salaries
-  Capitalism didn't cause the Great Depression—and the New Deal didn't cure it

Guide to the Middle East Martin Sieff, 2008-01-28 The Middle East is almost never off the front pages yet most Americans know little about the region Why The mainstream media and Ivy League academics instead of helping only make matters worse by casting everything in the usual politically correct mold Arab terrorists are just desperate freedom fighters and the region's one free democracy Israel is the oppressor not least because of its alliance with America And if Islamic extremism is a problem the establishment tells us it's only because it's rooted in that source of all evils religion A different strain of political correctness has seeped into some minds on the right most notably the Bush administration which so ready to buy into the egalitarian myths we are all taught believed that Western style democracy could flourish anywhere Now in *The Politically Incorrect Guide to the Middle East* veteran Middle East correspondent Martin Sieff puts the lie to all these myths and clichés giving you everything you need to know about the region to understand its past its present and its possible future

Horner,2007-02-12 InThe Politically Incorrect Guide tm to Global Warming and Environmentalism Christopher C Horner tears the cover off the Left s manipulation of environmental issues for political purposes and lays out incontrovertible evidence for the fact that catastrophic man made global warming is just more Chicken Little hysteria not actual science He explains why although Al Gore and his cronies among the media elites and UN globalists endlessly bleat that global warming is an unprecedented global crisis they really think of it as a dream come true It s the ideal scare campaign for those who hate capitalism and love big government **Politically Incorrect Guide to the Presidents, Part 2** Steven F. Hayward,2017-01-09 A book to challenge the status quo spark a debate and get people talking about the issues and questions we face as a country Summary of Marc Morano's The Politically Incorrect Guide to Climate Change (The Politically Incorrect Guides) Everest Media,2022-05-02T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 I am not a scientist but I do regularly appear on television to expose the unscientific claims about catastrophic man made climate change I have spent the last twenty five years in a variety of disciplines including as a working journalist documentary maker radio talk show host and author 2 I am a climate skeptic a doubter and a dissenter I have been smeared as a denier But I am not alone in my skepticism I work regularly with a large

network of internationally renowned scientists many of them formerly of the United Nations Intergovernmental Panel on Climate Change 3 I started out my political life as an eleven year old volunteer for Ronald Reagan s 1980 presidential campaign I was not a fan of James Watt Reagan s Interior secretary as I was upset by his land use policies and by what I perceived to be his anti environmental stances 4 My documentary refuted the myth that environmentalists and celebrities are the friends of indigenous people I spoke with the tribal leaders who have contempt for environmental activists and celebrities because they feel exploited by them **Politically Incorrect Guide to Women, Sex And Feminism** Carrie L.

Lukas,2006-05-01 The latest in the New York Times bestselling series is the perfect antidote to the lies told in boardrooms locker rooms and universities that are brainwashing young women every day *Politically Incorrect Guide to the Presidents* Steven F. Hayward,2012-02-13 Larry Schweikart a retired history professor is ready to set the record straight on the American presidents He goes through each of the first 26 presidents from Washington to Taft and debunks myths lies and fake news made fact by the uninformed Discover why George Washington favored American isolationism James Madison supported states rights what Lincoln promised to Southerners about fugitive slaves and why nineteenth century presidents were the last to understand the true role of government So what made these presidents so much better than the ones America has now Schweikart argues that recent commanders in chief have welcomed crises to advance their own partisan agenda defied the separation of powers the Founders carefully constructed to preserve the Republic and given us every reason to doubt they take the country s interests to heart *Politically Incorrect Guide to the Constitution* Kevin

Gutzman,2007-06-11 The Constitution of the United States created a representative republic marked by federalism and the separation of powers Yet numerous federal judges led by the Supreme Court have used the Constitution as a blank check to substitute their own views on hot button issues such as abortion capital punishment and same sex marriage for perfectly constitutional laws enacted by We the People through our elected representatives Now The Politically Incorrect Guide to the Constitution shows that there is very little relationship between the Constitution as ratified by the thirteen original states more than two centuries ago and the constitutional law imposed upon us since then Instead of the system of state level decision makers and elected officials the Constitution was intended to create judges have given us a highly centralized system in which bureaucrats and appointed not elected officials make most of the important policies InThe Politically Incorrect Guide to the Constitution Professor Kevin Gutzman explains how the Constitution Was understood by the founders who wrote it and the people who ratified it Follows the Supreme Court as it uses the fig leaf of the Constitution to cover its naked usurpation of the rights and powers the Constitution explicitly reserves to the states and to the people Slid from the Constitution s republican federal government with its very limited powers to an unrepblican judgeocracy with limitless powers How the Fourteenth Amendment has been twisted to use the Bill of Rights as a check on state power instead of on federal power as originally intended The radical inconsistency between constitutional law and the rule of law Contends that

the judges who receive the most attention in history books are celebrated for acting against the Constitution rather than for it As Professor Gutzman shows constitutional law is supposed to apply the Constitution s plain meaning to prevent judges presidents and congresses from overstepping their authority If we want to return to the founding fathers vision of the Republic if we want the Constitution enforced in the way it was explained to the people at the time of its ratification then we have to overcome the received wisdom about what constitutional law is

The Politically Incorrect Guide to the Constitution is an important step in that direction

Politically Incorrect Guide to Climate Change Marc Morano,2018-02-26 Updated to include new section on the Green New Deal The climate scare ends with this book SEAN HANNITY This book arms every citizen with a comprehensive dossier on just how science economics and politics have been distorted and corrupted in the name of saving the planet MARK LEVIN Less freedom More regulation Higher costs Make no mistake those are the surefire consequences of the modern global warming campaign waged by political and cultural elites who have long ago abandoned fact based science for dramatic fearmongering in order to push increased central planning

The Politically Incorrect Guide to Climate Change gives a voice backed by statistics real life stories and incontrovertible evidence to the millions of deplorable Americans skeptical about the multibillion dollar climate change complex whose claims have time and time again been proven wrong

Politically Incorrect Guide to Science Tom Bethell,2005-11-25 If the globe is warming is mankind responsible or is the sun Such a statement does not appear out of place in Bethell s entertaining account of how modern science is politically motivated and in desperate need of oversight Bethell writes in a compulsively readable style and although he provides legitimate insight into the potential benefits of nuclear power and hormesis some readers will be turned off when he attempts to disprove global warming and especially evolution Throughout the book Bethell makes questionable claims about subjects as varied as AIDS careful U S studies had already shown that at least a thousand sexual contacts are needed to achieve heterosexual transmission of the virus and extinction It is not possible definitely to attribute any given extinction to human activity and backs up his arguments with references to the music magazine SPIN and thriller writer Michael Crichton Ironically Bethell ends up proving his own premise by producing a highly politicized account of how liberal intellectuals and unchecked government agencies have created a white coated priesthood whose lust for grant money has driven them to produce fearsome but in Bethell s view false tales of ozone destruction and AIDS pandemics In the end this book is unlikely to sway readers who aren t already in Bethell s ideological camp as any points worthy of discussion get lost in the glut of unsourced claims that populate this latest installment of **The Politically Incorrect Guide** series

Woods,2004-01-04 The problem in America isn t so much what people don t know the problem is what people think they know that just ain t so Thomas E Woods Most Americans trust that their history professors and high school teachers will give students honest and accurate information

The Politically Incorrect Guide to American History makes it quite clear that liberal professors have misinformed our children for generations
