A User's Guide to Campaign Finance Reform Gerald C. Lubenow, 2001 Is campaign finance reform dead or alive Can Congress really fix the problems that American voters perceive in their electoral system This book assumes that voters are the end users of campaign finance reform and it questions whether average citizens really know what they are asking for or what they may get when they demand change In this book ten prominent political scientists and commentators challenge the conventional wisdom about the role of money in campaigns and elections They look at the level of campaign spending in recent times the judicial perspective on spending as a First Amendment right the current diversity of donors the media spin on the subject and the act of contributing as a form of political participation The inimitable

Political Advocacy and Its Interested Citizens Matthew Dean Hindman, 2018-10-02 Advocates representing historically disadvantaged groups have long understood the need for strong public relations effective fundraising and robust channels of communication with the communities that they serve Yet the neoliberal era and its infusion of money into the political arena have deepened these imperatives thus adding new financial hurdles to the long list of obstacles facing minority communities To respond to these challenges a professionalized nonprofit model of political advocacy has steadily gained traction In many cases advocacy organizations sought to harness and redirect the radical verve that characterized the protest movements of the 1960s into pragmatic state sanctioned approaches to political engagement In *Political Advocacy and Its Interested Citizens* Matthew Dean Hindman looks at how and why contemporary political advocacy groups have transformed social movements and their participants Looking to LGBT political movements as an exemplary case study Hindman explores the advocacy explosion in the United States and its impact on how advocates encourage citizens to understand their role in the political process He argues that current advocacy groups encourage members of the LGBT community to view themselves as stakeholders in a common struggle for political incorporation In doing so however they often overshadow more imaginative and transformational approaches that could unsettle and challenge straight society and its prevailing political and sexual norms Advocacy groups carved out a space within a neoliberalizing political process that enabled them to instruct their members followers and constituents on serving effectively as industrious political claimants *Political Advocacy and Its Interested Citizens* thus sheds light on grassroots politics as it is practiced in present day America and offers a compelling and original analysis of the ways in which neoliberalism challenges citizens to participate as consumers and investors in the advocacy marketplace
