National Government Narratives of the EU Hussein Kassim, Adriaan Schout, 2025-02-26 This book examines and compares government narratives of the EU It thereby addresses a topical issue of major political importance Bringing together leading specialists from across Europe it takes a first step in filling a gap in the scholarly literature where attention has focused mainly on narrative making at the EU level or societal understandings of Europe At a time when crises the rise of Eurosceptic populism and the UK s departure have revealed significant differences in how states view the purpose of the European Union and the significance and value of EU membership it asks How do governments explain and justify their relationship with the EU How do these narratives change over time What do these visions imply for the EU s future

Do Elections (Still) Matter? Emiliano Grossman, Isabelle Guinaudeau, 2021 This volume examines the question of whether election campaigns are relevant to policymaking shedding new light through a study of electoral priorities and the extent to

which they are reflected in public policy Introduction à la communication politique Philippe Aldrin, Nicolas Hubé, 2022-04-19 Par l'importance qu'elle a prise dans le travail institutionnel et politique la communication est une entrée privilégiée pour comprendre les transformations contemporaines de la conquête et de l'exercice du pouvoir Dans la conquête comme dans l'exercice du pouvoir la communication occupe aujourd'hui une place cruciale Chânes d'information continue réseaux sociaux cotes de popularité emballements médiatiques et stratégies d'influence des groupes de pression sont le nouvel horizon de l'activité politique Si l'éloquence et le maniement ritualisé des symboles y sont toujours de mise bien communiquer est devenu un impératif absolu dans les sociétés de l'information voire de la surinformation Ce manuel expose tout d'abord le mouvement historique au terme duquel l'espace public les médias de masse et la mesure de l'opinion sont devenus un enjeu central du jeu politique En s'attachant les remettre en contexte il présente ensuite les évolutions d'une science de la communication politique née au croisement de la recherche universitaire de la publicité des affaires politiques et de l'économie des médias Enfin il propose de suivre l'invention puis la consécration de nouveaux métiers des spin doctors aux community managers dans la division du travail politique Ponctué de définitions claires et d'exemples nombreux cet ouvrage l'approche inédite donne toutes les clés pour comprendre les formes historiques et immédiatement contemporaines de la communication politique Pour les étudiants et enseignants des 1er et 2e cycles en science politique et en sociologie ainsi que des formations supérieures en communication et en journalisme *Policy Analysis in France* Charlotte Halpern, Patrick Hassenteufel, Philippe Zittoun, 2018-01-03 Understanding policy analysis in France requires first a thorough exploration of the distinction usually made in French academic and practitioner debates between policy studies and policy analysis essentially the difference between studies of policy and studies designed for the use of policy This book begins there then delves into questions of how and by whom knowledge of policies is produced within and outside the French state showing that while the tension between the two types of study is real the continued exchange of ideas between them has led to an enrichment of both spheres The book thus lays the foundation for a more systematic understanding of policy analysis in France The Partisan Politics of Law and Order Georg Wenzelburger, 2020 Why have some Western democracies turned toward tougher law and order policies whereas others have not Based on quantitative analyses and case studies of four countries The Partisan Politics of Law and Order demonstrates that the configuration of party systems and institutional context play a key role in the development of law and order policies *Republican Citizens, Precarious Subjects* Jeremy F. Lane, 2020 Over recent decades concerns at the increased scarcity and precarity of salaried employment have dominated political struggles theoretical debates and cultural representations in France This study argues that such concerns are evidence of a profound shift in contemporary French economy culture and society Engaging with work in political economy and sociology the book sketches a new interpretative framework the better to understand the nature and implications of these profound changes It examines the challenges such changes have posed to fundamental French republican values

arguing they have opened up a rift between older notions of French republican citizenship and the precarious forms of subjectivity characteristic of post Fordist labour The book traces the symptoms of this rift in a range of cinematic and literary representations of the contemporary workplace as these depict the dilemmas faced the trajectories followed and the geographical regions inhabited by French workers of different ages sexes social classes and ethnicities *Polarity, Balance of Power and International Relations Theory* Goedele De Keersmaecker, 2016-12-04 This book discusses the rise of polarity as a key concept in International Relations Theory Since the end of the Cold War until at least the end of 2010 there has been a wide consensus shared by American academics political commentators and policy makers the world was unipolar and would remain so for some time By contrast outside the US a multipolar interpretation prevailed This volume explores this contradiction and questions the Neorealist claim that polarity is the central structuring element of the international system Here the author analyses different historic eras through a polarity lens compares the way polarity is used in the French and US public discourses and through careful examination reaches the conclusion that polarity terminology as a theoretical concept is highly influenced by the Cold War context in which it emerged This volume is an important resource for students and researchers with a critical approach to Neorealism and to those interested in the defining shifts the world went through during the last twenty five years **Leçons d'introduction à la Science politique - 3e édition** Lefebvre Rémi, 2017-07-18 Des le ons d taill es des rep res incontournables et des compl ments pour gagner des points Des sujets corrig s classiques ou diffi ciles pour s entra ner avant l examen ou le concours Un questionnaire de 100 QCM pour faire le point sur ses connaissances Une s lection de lectures pour aller plus loin Un index
