Shanghai Lordinaire Et Lexceptionnel:

Contemporary China Gilles Guiheux, 2023-05-18 With a population of nearly 1.5 billion and the world's second largest economy China is a major player in the world today and yet many in the West know very little about contemporary China. This book provides a clear, authoritative and up-to-date history of China since 1949, drawing on extensive research to describe and explain the key developments and to dispel the many myths and misconceptions surrounding this twenty-first century superpower. In contrast to many commentators who overstate the novelty of the Communist regime, Guiheux emphasizes instead its complex political heritage, highlighting the many continuities it shares with the reformers and revolutionaries of the early twentieth century. At the same time, the ability of China's authoritarian regime to transform the economy and society is key to understanding its breakneck trajectory of modernization, an ability that, as Guiheux explains, far outweighed the importance and effectiveness of Mao's utopian vision. Guiheux also aims to de-exoticize China. While not on the path of a Western-style modernity, China has experienced the same phenomena that have characterized every historical process of modernization: industrialization, urbanization, bureaucratization, and globalization. This expertly researched history of the People's Republic of China will be essential reading for all students and scholars of Chinese history and politics, and for anyone interested in contemporary China.

China's Urban Century François Gipouloux, 2015-11-27 The achievements of China's urbanization should not be evaluated solely in terms of adequate infrastructures but also in their ability to implement sound governance practices to ensure social, environmental, and economic development. This book addresses several key challenges faced by Chinese cities based on the most recent policies and experiments adopted by central and local governments. The contributors offer an interdisciplinary analysis of the urbanization process in China and examine the following key topics: the institutional foundations of Chinese cities; the legal status of the land; the rural-to-urban migration; the preservation of the urban heritage; and the creation of urban community and the competitiveness of Chinese cities. They define the current issues and challenges emerging from China's urbanization. Students and academics of urban studies and related subjects will find the strong theoretical backgrounds to be of use to their research. Policy makers and other practitioners will benefit from the practical advice and recommendations.

Reports on Trade at the Treaty Ports in China, 1868 **Shanghai** Françoise Ged, 2014-03-13 Shanghai, c'est la ville mythique par excellence. Capable de se renouveler cycliquement, de se rebâtir continuellement, on pourrait la croire dans un présent absolu, comme absente son histoire récente ou non, comme sans mémoire. Mais ce qui était vrai au début des années 2000 ne l'est peut-être plus aujourd'hui. Ville à l'avant-garde, laboratoire, elle a connu des bouleversements majeurs. Les grands travaux ayant pris fin, la ville se tourne vers d'autres chantiers, se réapproprie son histoire en même temps que son territoire. Et la société participe au premier chef de ces nouvelles aventures qui sont comme les prémices du visage de la Chine, elle-même.
