The Broken World of Sacrifice J. C. Heesterman, 2012-12-10 In this book J C Heesterman attempts to understand the origins and nature of Vedic sacrifice the complex compound of ritual practices that stood at the center of ancient Indian religion Paying close attention to anomalous elements within both the Vedic ritual texts the brahmanas and the ritual manuals the srutasutras Heesterman reconstructs the ideal sacrifice as consisting of four moments killing destruction feasting and contest He shows that Vedic sacrifice all but exclusively stressed the offering in the fire the element of destruction at the expense of the other elements Notably the contest was radically eliminated At the same time sacrifice was withdrawn from society to become the sole concern of the individual sacrificer The ritual turns in on the individual as self sacrificer who realizes through the internalized knowledge of the ritual the immortal Self At this point the sacrificial cult of the fire recedes behind doctrine of the atman s transcendence and unity with the cosmic principle the brahman Based on his intensive analysis Heesterman argues that Vedic sacrifice was primarily concerned with the broken world of the warrior and sacrificer This world already broken in itself by the violence of the sacrificial contest was definitively broken up and replaced with the ritualism of the single unopposed sacrificer However the basic problem of sacrifice the riddle of life and death keeps breaking too surface in the form of incongruities contradictions tensions and oppositions that have perplexed both the ancient ritual theorists and the modern scholar

Useful Enemies David Keen, 2012-07-31 Keen investigates why conflicts are so prevalent and so intractable even when

From the Enemy's Point of View Eduardo Viveiros de Castro,2020-05-02 The Arawet are one of the few Amazonian peoples who have maintained their cultural integrity in the face of the destructive forces of European imperialism In this landmark study anthropologist Eduardo Viveiros de Castro explains this phenomenon in terms of Arawet social cosmology and ritual order His analysis of the social and religious life of the Arawet a Tupi Guarani people of Eastern Amazonia focuses on their concepts of personhood death and divinity Building upon ethnographic description and interpretation Viveiros de Castro addresses the central aspect of the Arawete s concept of divinity consumption showing how its cannibalistic expression differs radically from traditional representations of other Amazonian societies He situates the Arawet in contemporary anthropology as a people whose vision of the world is complex tragic and dynamic and whose society commands our attention for its extraordinary openness to exteriority and transformation For the Arawet the person is always in transition an outlook expressed in the mythology of their gods whose cannibalistic ways they imitate From the Enemy s Point of View argues that current concepts of society as a discrete bounded entity which maintains a difference between interior and exterior are wholly inappropriate in this and in many other Amazonian societies Critical Moments in

Blood Sacrifice and the Nation Carolyn Marvin,David W. Ingle,1999-03-11 This

compelling book argues that American patriotism is a civil religion of blood sacrifice which periodically kills its children to keep the group together The flag is the sacred object of this religion its sacrificial imperative is a secret which the group keeps from itself to survive Expanding Durkheim s theory of the totem taboo as the organizing principle of enduring groups Carolyn Marvin uncovers the system of sacrifice and regeneration which constitutes American nationalism shows why historical instances of these rituals succeed or fail in unifying the group and explains how mass media are essential to the process American culture is depicted as ritually structured by a fertile center and sacrificial borders of death Violence plays a key part in its identity In essence nationalism is neither quaint historical residue nor atavistic extremism but a living tradition which defines American life

Gullbekk,Eva-Johanna Marie Lafuente Nilsson,2023-10-26 The present volume was made possible by the Norwegian Research Council s generous funding of the Human Sacrifice and Value project FRIPROHUMSAM 275947 This volume explores concepts of human sacrifice focusing on its value or multiplicity of values in relative cultural and temporal terms whether sacrifice is expressed in actual killings in ideas revolving around ritualized sanctioned or sanctified violence or loss or in transformed and often sublimated undertakings Bridging a wide variety of interdisciplinary perspectives it analyses a spectrum of sacrificial logics and actions daring us to rethink the scholarship of sacrifice by considering the oft hidden subliminal and even paradoxical values and motivations that underlie sacrificial acts The chapters give needed attention to pivotal questions in studies of sacrifice and ritualized violence such as how we might employ new approaches to the existing

evidence or revise long debated theories about what exactly human sacrifice is or might be or why human sacrifice seems to emerge so often and so easily in human social experience across time and in vastly different cultures and historical contexts Thus the volume will strike a chord with scholars of sociology anthropology archaeology history religious studies political science and economics wherever interest is focused on critically rethinking questions of sacred and sanctified human violence and the values that make it what it is
