The Same Stuff As Stars Report:

The Same Stuff as Stars Katherine Paterson, 2003 Angel's dad is in jail and her mum's abandoned her and her little brother at their great grandmother's crumbling farmhouse Grandma can't even look after herself let alone two children so Angel finds that it's left up to her In a dreary and lonely world there is only one bright spot a mysterious stranger who appears on clear nights to teach Angel all about the stars Katherine Paterson is an internationally acclaimed author who has won the Newbery Medal twice the National Book Award for Children's Literature USA twice and the prestigious Hans Christian Andersen Award

Reports of Cases in the Courts of Star Chamber and High Commission Samuel Rawson Gardiner, 1886

The Metaphysics of G. E. Moore David O'Connor, 1982-03-31 In this book setting aside his consideration of specifically ethical topics I try to provide a comprehensive interpretation of Moore's thought Against the background of this general interpretation I examine in detail his work on some of the central problems of metaphysics and because Moore's being able to sustain a consistent anti-skepticism is essential to the survival of the base from which he works on those problems of epistemology too The interpretation of which I speak involves my taking as the centerpiece of Moore's philosophical work his book *Some Main Problems of Philosophy* written in 1910 as the text of a lecture series but left unpublished for over forty years thereafter That book is aptly titled for the issues with which Moore deals in it are indeed among the main problems of philosophy Not least of these are the problems of formulating a general categorical description of the world and then of defending that formulation However while I will discuss Moore's work in light of its contribution to this project of taking metaphysical inventory it is important to note that he in common with many other major figures in contemporary analytical philosophy did not approach specific philosophical puzzles with a view to possibly integrating solutions to them into a comprehensive theory about reality as a whole that is into what might be called a metaphysical system
