Abbott,2025-07-22 Do all good people go to heaven Some religions indicate that our eternity is based on our good works Although being a good person is important it is not the deciding factor according to the Bible The Bible says God's requirement for entering heaven is being 100 percent perfect and sinless The reality is no one has ever lived a perfect sinless life except Jesus How was He able to do that Jesus is a member of the triune Godhead Father Son and Holy Spirit This is not three gods it is one God with three identities similar to how people on earth are able to be a parent a child a spouse etc without being different people God is holy and cannot abide with sin Recognizing that people do sin God's infinite love determined a solution to enable people to fellowship with God while living on earth and forever in heaven God's solution is that Jesus God the Son left the glory of heaven was born as a human child lived a sinless life and offered Himself as a perfect sacrifice to pay the penalty for all mankind's sins for all time That sacrifice involved

Jesus's death on a Roman cross, burial and His resurrection in three days. Jesus was fully human but also fully God, as evidenced by His miracles, His fulfillment of Old Testament prophecies and His sinless life. He demonstrated that love of God and love of others are the most important components of mankind's relationship with God and people. God's only stipulation is that we must believe in Jesus and ask Him to become our Lord and Savior. Without accepting the gift of Jesus's atoning blood to wash away our sins, the alternative is an eternity separated from God. This book explores why the Bible can be believed as a source of truth and discusses the evidence of Jesus being the Son of God and the reality of God's love for all people.

Theoretical Frameworks for Personal Relationships Ralph Erber, Robin Gilmour, 2013-06-17 The past two decades have seen a tremendous increase in research and scholarship devoted to personal relationships. From rather scattered beginnings, a recognizable and recognized field has emerged, whose strength and health is reflected in a wide array of indicators. The editors contend that while the vigor of the field is often shown in the diversity and innovation of its research, it is in the theoretical domain that they find evidence of a real coming of age. This volume provides grounds for arguing that the diversity of theorizing is particularly healthy at this point. The reader will notice that there is some diversity in terms of how much theory and research is contained in each chapter; some are purely theoretical, others are complemented by original pieces of empirical research. The editors and contributors are from different countries, another way in which the diversity of this book manifests itself. The variety of the frameworks presented are seen as a strength, as building on established strengths elsewhere to feed into relationship research and enhance its vitality. Each chapter makes its own contribution to thinking and research about personal relationships. As a group, they add to an exciting collection that not only reflects a richness of conceptual backing but also a wide range of usable theoretical structures.
