North-west Side, Etc**, 1854      **The Mismapping of America** Seymour I. Schwartz, 2008 The history of five major cartographic errors of American geography that have had considerable resonance long after they were perpetrated The Mismapping of America presents and analyzes the significant cartographic errors that have shaped the history of the United States Perhaps the most blatant error is the very name America that honors Amerigo Vespucci who not only never set foot on North American soil but also played no significant role in the discovery of South America The appearance of the name America imprinted on a map ensured its permanence Other significant errors explored in The Mismapping of America include Giovanni da Verrazzano's misinterpretation of Pamlico or Albermarle Sound for the Pacific Ocean thereby suggesting the presence of an isthmus in the middle of the North American continent the existence of a direct North West passage between the Atlantic and Pacific oceans the misconception that California was an island and the insertion on Lake Superior of a fictitious island that is specifically referred to in defining the boundary of the United States The inclusion of pertinent rare maps enhances this rich and revealing narrative of several intriguing episodes in the history of the geographic evolution of the United States Seymour I Schwartz is the Distinguished Alumni Professor of Surgery at the University of Rochester and an expert on the history of mapping America He is the coauthor of Mapping of America and author of The French and Indian War 1754-1763 The Imperial Struggle for North America and This Land is Your Land      **Bibliotheca Americana** John Russell Bartlett, 1866      **Catalog of Copyright Entries, Third Series**, 1967 The record of each copyright registration listed in the Catalog includes a description of the work copyrighted and data relating to the copyright claim the name of the copyright claimant as given in the application for registration the copyright date the copyright registration number etc

peoples were discovered as well as new lands and the voyages led to changing perceptions of their lifestyles Exploration was followed by trade and settlement in which Cook s associates such as Banks played a leading part Before the end of the century there were British settlements in New South Wales Nootka Sound had become a centre of international dispute and across the Pacific traders whalers and missionaries were following the tracks of the explorers *The English Catalogue of Books* ,1882 *History of the Northwest Coast ...* Hubert Howe Bancroft,1886 *History of the Northwest Coast: 1543-1800* Hubert Howe Bancroft,1890 John Dee: Interdisciplinary Studies in English Renaissance Thought Stephen Clucas,2006-06-18 Intellectual History and the Identity of John Dee In April 1995 at Birkbeck College University of London an interdisciplinary colloquium was held so that scholars from diverse fields and areas of expertise could 1 exchange views on the life and work of John Dee Working in a variety of fields intellectual history history of navigation history of medicine history of science history of mathematics bibliography and manuscript studies we had all been drawn to Dee by particular aspects of his work and participating in the colloquium was to c front other narratives about Dee s career an experience which was both bewildering and instructive Perhaps more than any other intellectual figure of the English Renaissance Dee has been fragmented and dispersed across numerous disciplines and the various attempts to re integrate his multiplied image by reference to a particular world view or philosophical outlook have failed to bring him into focus This volume records the diversity of scholarly approaches to John Dee which have emerged since the synthetic accounts of I R F Calder Frances Yates and Peter French If these approaches have not succeeded in resolving the problematic multiplicity of Dee s activities they will at least deepen our understanding of specific and local areas of his intellectual life and render them more historiographically legible The Works of Hubert Howe Bancroft.
