The Sleeper English Edition:

The End of the World Ernesto de Martino, 2023-11-29 A philosopher historian of religions and anthropologist Ernesto De Martino is often glossed as ahead of his time In his work a reader sees the roots of psychological and medical anthropology discussions of reflexivity and the role of the ethnographer considerations of colonialism and migration and the trauma they might engender and an anticipation of the existential turn in anthropology A reader would also find an attentiveness to hope and possibility despite the gloomy title of his posthumously published book *La fine del mondo* **The End of the World** Perhaps the end of the world is an overstatement But in a rapidly globalizing world one in which the entire earth becomes our shared cultural homeland despite our different values and local histories the end of the world might simply mean the end of a world our particular world and the dawning of something new the world of tomorrow De Martino seeks in part to make the idea of the end of a world less horrifying while at the same time attending to the individual loss of self that one might feel in contemplating an apocalypse especially as modernization has divorced us from the rituals and folklore that might make such an eventuality less terrifying De Martino writes Two opposed terrors dominate our age the terror of losing the world and the terror of being lost in the world The end of the world the loss of presence Interweaving the cultural and individual levels of apocalypse treating subjects both classic and contemporary and both European and non Western ranging across ethnography and philosophy De Martino probes how we relate to our world and how we might be better subjects and thinkers within it **The Athenæum**, 1857 *The Compact Edition of the Oxford English Dictionary* Sir James Augustus Henry Murray, 1971 Micrographic reproduction of the 13 volume Oxford English dictionary published in 1933 **The Athenæum**, 1857 *Twentieth-century Italian Literature in English Translation* Robin Healey, 1998-01-01 This bibliography lists English language translations of twentieth century Italian literature published chiefly in book form between 1929 and 1997 encompassing fiction poetry plays screenplays librettos journals and diaries and correspondence **Notes on the Underground, new edition** Rosalind Williams, 2008-04-11 Real and imagined undergrounds in the late nineteenth century viewed as offering a prophetic look at life in today's technology dominated world The underground has always played a prominent role in human imaginings both as a place of refuge and as a source of fear The late nineteenth century saw a new fascination with the underground as Western societies tried to cope with the pervasive changes of a new social and technological order In *Notes on the Underground* Rosalind Williams takes us inside that critical historical moment giving equal coverage to actual and imaginary undergrounds She looks at the real life invasions of the underground that occurred as modern urban infrastructures of sewers and subways were laid and at the simultaneous archaeological excavations that were unearthing both human history and the planet's deep past She also examines the subterranean stories of Verne Wells Forster Hugo Bulwer Lytton and other writers who proposed alternative visions of the coming technological civilization Williams argues that these imagined and real underground environments provide models of human life in a world dominated

by human presence and offer a prophetic look at today's technology dominated society. In a new essay written for this edition Williams points out that her book traces the emergence in the nineteenth century of what we would now call an environmental consciousness, an awareness that there will be consequences when humans live in a sealed finite environment. Today we are more aware than ever of our limited biosphere and how vulnerable it is. *Notes on the Underground* now even more than when it first appeared offers a guide to the human cultural and technical consequences of what Williams calls the human empire on earth. *British Books*, 1900

Visions and Re-visions Robert M. Philmus, 2005-01-01 The former editor of *Science Fiction Studies* Robert M. Philmus now casts his expert eye on a diverse range of short stories and novels by the premier creators of science fiction including George Orwell, C. S. Lewis and Ursula LeGuin. With essays on such masters of the genre as Stanislaw Lem, Kurt Vonnegut and Philip K. Dick, the volume provides an in-depth textual examination of science fiction as a truly revisionary genre. *Visions and Revisions* will be of immense value to scholars of literature and science fiction studies.
