Great Zimbabwe Shadreck Chirikure, 2020-11-29 Conditioned by local ways of knowing and doing, Great Zimbabwe develops a new interpretation of the famous World Heritage site of Great Zimbabwe. It combines archaeological knowledge including recent material from the author's excavations with native concepts and philosophies. Working from a large data set, it has made it possible for the first time to develop an archaeology of Great Zimbabwe that is informed by finds and observations from the entire site and wider landscape. In so doing, the book strongly contributes towards decolonising African and world archaeology. Written in an accessible manner, the book is aimed at undergraduate students, graduate students, and practicing archaeologists both in Africa and across the globe. The book will also make contributions to the broader field, such as African Studies, African History, and World Archaeology, through its emphasis on developing synergies between local ways of knowing and the archaeology.

Society, Power, and Land in Northeastern Zimbabwe, ca. 1560-1960 Admire Mseba, 2024-11-12 A little over two decades ago, Zimbabwe undertook its Fast Track Land Reform Programme. Critics saw it as nothing more than an assault on human and property rights for political expedience by a ruling elite that was fast losing its power. In contrast, those sympathetic to the land reform program saw it as fundamental to the righting of colonialism's historical wrongs. Yet rural displacements at the hands of state actors or of those closely connected to them continue. As in the past, the continuing land conflicts are mostly understood as the result of the actions of an authoritarian state that exploits its control of land for the political and economic benefit of those who inhabit it. These explanations share one thing in common: each understands the country's perpetual land questions in terms of the actions or inactions of the colonial or the postcolonial state. This book refocuses attention on how regimes of power, rooted in kinship, gender, generation, and status, have individually and in combination informed access to land in precolonial northeastern Zimbabwe. It then examines how these regimes of power interacted with colonial policies to inform the African experience in colonial Zimbabwe. Further, the book places land and the ability to ensure its fecundity at the center of the making and moderation of precolonial political power and how this power was impacted by the imposition of colonial rule. Tracing the dynamics of land and power from precolonial times together with their entanglement with colonial policies is important for this relationship, which is almost always neglected by both scholars and policymakers drawn to the high drama of colonial and postcolonial politics of land. This oversight has real consequences on our understandings of landed inequalities and how they are addressed. When Zimbabwe's

postcolonial state focused on colonially induced racialized land inequalities its land reform efforts left older forms of landed inequalities based on gender generation and ideas of belonging intact The book which details these inequalities reminds Zimbabweans and others that if the quest for equity espoused in postcolonial land reforms is to be meaningful it must be attentive to both colonially induced inequalities and those enduring disparities that predated were deepened by and outlived colonial rule At the same time Zimbabweans who now live with a postcolonial state that is increasingly centralizing power over land may well learn from past societies creative efforts to limit the authority of their leaders **The South African**

Ranger, T. O. Ranger, 2001 This volume explores the prehistory of human rights in Zimbabwe It asks whether there are democratic legacies from pre colonial polities and what limitations then existed on human rights It also asks what colonialism contributed to the discourse of human rights and democracy despite its denial of both to Africans Contents pre colonial states of Central Africa as embodiments of despotic culture archaeological evidence of political structures democracy and traditional political structure 1890 1999 imperial and settler hypocrisy and double standards and the denial of human rights black elite responses to ideologies of democracy the law courts in Rhodesia interaction between white and black trade unionism and the Build a Nation campaign 1961 62 **Encyclopedia of African History 3-Volume Set** KEVIN SHILLINGTON., 2005 **The Political Legacy of Colonialism in Zimbabwe** Everisto Benyera, 2024-11-18 This book investigates the political legacy of colonialism in contemporary African institutions Using the case study of electoral and justice institutions in post colonial Zimbabwe the book explores how those in post colonial states relate to and with

institutions initially designed to oppress them and remain structurally and systematically colonial The book argues that the colonial era colonised the land knowledge and minds of Africans resulting in injustice and epistemicides The book demonstrates how the critical institutions of elections and justice have been rendered anti black and toxic The book calls for Africa to invest in epistemic independence unencumbered by Western political modernity and then deploy that independence to build reconstituted institutions structures and systems that serve the interests of Africans This book will be an important read for African policymakers and researchers working on African politics governance and international relations
