

*A good heart has
stopped beating,
but a heart that has touched so
many lives can't help but live
on in those it loved.*

*Someone so
special
can never
be forgotten.*

*Please accept
our most
heartfelt
condolences.*

The Soldier S Sympathy:

The Soldier's Friend Susan E. D. Smith, John Little, 1867 **The Investment of Influence: A Study of Social Sympathy and Service** Newell Dwight Hillis, 2022-09-16

In *The Investment of Influence: A Study of Social Sympathy and Service* Newell Dwight Hillis presents a compelling exploration of the role of social influence in fostering community and individual growth. Employing a blend of eloquent prose and practical insights, Hillis delves into the interconnectedness of social sympathy, outlining the moral imperative of mutual aid in an increasingly industrialized society. The book, rooted in the progressive ideals of the early 20th century, reflects a growing awareness of the responsibilities that accompany one's social status and the need for compassionate action in service of others. Newell Dwight Hillis was a prominent American clergyman and writer whose experiences in the burgeoning urban environment of the early 1900s shaped his views on social ethics. As a leader in the Chicago Congregational Church and an influential lecturer, Hillis was deeply concerned with the challenges posed by modernity, including poverty and isolation. His profound commitment to social justice and community service is reflected in this work, making it a significant addition to his oeuvre and to contemporary discussions on social responsibility. Hillis's insightful examination is not only a historical look at social dynamics but remains profoundly relevant today. Readers interested in social change, ethics, and the power of individual influence will find this work both inspiring and foundational. *The Investment of Influence* is essential for anyone seeking to understand the moral dimensions of their societal roles and the transformative power of collective compassion.

Everybody's America David Witzling, 2012-09-10

Everybody's America reassesses Pynchon's literary career in order to explain the central role played by the racialization of American culture in the postmodernist deconstruction of subjectivity and literary authority and in the crisis in white liberal culture. It charts the evolution of both these cultural transformations from Pynchon's early short stories composed in the late 1950s through *Gravity's Rainbow*, published in 1973. This book demonstrates that Pynchon deploys techniques associated with the decentering of the linguistic sign and the fragmentation of narrative in order to work through the anxieties of white male subjects in their encounter with racial otherness. It also charts Pynchon's attention to non-white and non-Euro-American voices and cultural forms which imply an awareness of and interest in processes of transculturation occurring both within U.S. borders and between the U.S. and the Third World. In these ways, his novels attempt to acknowledge the implicit racism in many elements of white American culture and to grapple with the psychological and sociopolitical effects of that racism on both white and black Americans. The argument of *Everybody's America* however also considers the limits of Pynchon's implicit commitment to hybridity as a social ideal, identifying attitudes expressed in his work that suggest a residual attraction to the mainstream liberalism of the fifties and early sixties. Pynchon's fiction dramatizes the conflict between the discourses and values of such liberalism and those of an emergent multiculturalist ethos that names and valorizes social difference and hybridity. In identifying the competition between residual liberalism and an emergent multiculturalism.

Everybody's America makes its contribution to the broader understanding of postmodern culture **Confederate Sympathies** Andrew Donnelly, 2025-04-15 The archive of the Civil War era is filled with depictions of men's same sex affections and intimacies Across antebellum campaign biographies proslavery fiction published memoirs of Confederate veterans and Union prisoners of war Civil War novels newspaper accounts and the war's historiography homoerotic symbolism and narratives shaped the era's politics as well as the meaning and memory of the war The Civil War in turn shaped the development of homosexuality in the United States In a book full of surprising insights Andrew Donnelly uncovers this deeply consequential queer history at the heart of nineteenth century national culture Donnelly's sharp analytical eye particularly focuses on the ways Northern white men imagined their relationship with white Southerners through narratives of same sex affection Assessing the cultural work of these narratives Donnelly argues that male homoeroticism enabled proslavery coalition building among antebellum Democrats fostered sympathy for the national retreat from Reconstruction and contributed to the victories of Lost Cause ideology Linking the era's political and cultural history to the history of homosexuality Donnelly reveals that male homoeroticism was not inherently radical but rather cultivated political sympathy for slavery the Confederacy and white supremacy **The Tillman Fratricide** United States. Congress. House. Committee on Oversight and Government Reform, 2008 **The Empathetic Emotions in the History of Philosophy**, 2025-05-11 Empathy is widely discussed both in philosophy and more generally One might ask what empathy itself is and how it relates to specific emotions such as sympathy This volume is concerned with theories of emotions that can be described as empathetic either because they presuppose the human capacity for empathy or because they are essential to how empathy operates By exploring how Western philosophers from Ancient Greece up to the twentieth century have understood these emotions it becomes possible not only to gain a deeper understanding of certain empathetic emotions and their relation to the concept of empathy but to also see how these emotions are placed within a broader moral social or religious context Taking into account this context is essential when it comes to engaging with a number of compelling questions Does sympathy provide an adequate basis for a theory of human sociability and fellowship What roles do compassion and pity play in our moral lives and in the formation of the practical identities of human beings Can the altruistic character and concern for others that is traditionally ascribed to certain emotions be reconciled with competing values like self love and the self directedness of its concerns **Empathetic Emotions in the History of Philosophy** provides answers to these important questions **The Japanese Soldiers in the Second World War** Keiichi It?, 2024-07-01 Keiichi It bluntly writes from his own experience about the lives of Japanese soldiers at the front during the Second World War especially in China He combines interviews and testimonies to create a well rounded and candid picture that shows war from a personal and universal human perspective Such diverse topics as the soldiers battles and experiences prostitution and exchanges with the Chinese people are described The mentality of the Japanese people the building blocks of society and the military organization are also recognizable and subtly

woven into the work The Military Memoir and Romantic Literary Culture, 1780-1835 Neil Ramsey, 2016-12-05 Examining the memoirs and autobiographies of British soldiers during the Romantic period Neil Ramsey explores the effect of these as cultural forms mediating warfare to the reading public during and immediately after the French Revolutionary and Napoleonic wars Forming a distinct and commercially successful genre that in turn inspired the military and nautical novels that flourished in the 1830s military memoirs profoundly shaped nineteenth century British culture's understanding of war as Romantic adventure establishing images of the nation's middle class soldier heroes that would be of enduring significance through the nineteenth and twentieth centuries As Ramsey shows the military memoir achieved widespread acclaim and commercial success among the reading public of the late Romantic era Ramsey assesses their influence in relation to Romantic culture's wider understanding of war writing autobiography and authorship and to the shifting relationships between the individual the soldier and the nation The memoirs Ramsey argues participated in a sentimental response to the period's wars by transforming earlier impersonal traditions of military memoirs into stories of the soldier's personal suffering While the focus on suffering established in part a lasting strand of anti war writing in memoirs by private soldiers such stories also helped to foster a sympathetic bond between the soldier and the civilian that played an important role in developing ideas of a national war and functioned as a central component in a national commemoration of war

Proceedings of the Regular Convention ... Army & Navy Union, U.S.A. National Corps, 1896 **The Spectator**, 1870

Cobbett's Parliamentary Debates Great Britain. Parliament, 1854 Face Politics Jenny Edkins, 2015-04-10 The face is central to contemporary politics In Deleuze and Guattari's work on faciality we find an assertion that the face is a particular politics and dismantling the face is also a politics This book explores the politics of such diverse issues as images and faces in photographs and portraits expressive faces psychology and neuroscience face recognition face blindness facial injury disfigurement and face transplants through questions such as What it might mean to dismantle the face and what politics this might entail in practical terms What sort of a politics is it Is it already taking place Is it a politics that is to be desired a better politics a progressive politics The book opens up a vast field of further research that needs to be taken forward to begin to address the politics of the face more fully and to elaborate the alternative forms of personhood and politics that dismantling the face opens to view The book will be agenda setting for scholars located in the field of international politics in particular but cognate areas as well who want to pursue the implications of face politics for the crucial questions of subjectivity sovereignty and personhood *New Jersey and the Rebellion* John Young Foster, 1868 This book details the involvement of
