The Space Between Thought:

Meditation from Buddhist, Hindu, and Taoist Perspectives Robert Altobello, 2009 Engages readers with its original philosophical and pragmatic analysis of traditional Asian religions philosophy meditation practice and the supreme spiritual ideals associated with the Hindu Buddhist and Taoist traditions The text boldly bridges the theory practice distinction A central underpinning rests on the assumption that meditation practice without theory is groundless and that theory without practice is useless Identifies and analyzes common elements found across traditions in which the practice of meditation plays a central role in human development and readers will find a wealth of detailed reflection on the relationship between spiritual growth and meditation practice from the Hindu Buddhist and Taoist perspectives From publisher description
