Salmon,Merrilee H. Poincaré Husserl Heidegger and Wittgenstein Important connections between the empiricists and other movements neo empiricism British empiricism are vigorously explored Building on these historical studies a critical reevaluation emerges that shrinks the distance between old and new philosophers of science between analytic and Continental philosophy A number of compelling recent debates including those involving Kuhn Feyerabend Hesse Glymour and Hanson are reopened to show the ways in which logical empiricist theory can still be validly applied Logical Empiricism is the result of a remarkable conference convened in the spirit of reflection and international cooperation that took place in Florence Italy in 1999 **Romania**, 1973 On the Theory and Practice of Midwifery Fleetwood Churchill, 1866 **Bibliographia**
