A note found with him indicates that he and several others including *Jane's* captain William Guy had survived the assassination attempt at Tsalal and are still alive. Guy, who had talked to Jeorling earlier about the subject of Pym, reveals himself to be the brother of William Guy. He decides to try to come to the rescue of *Jane's* crew. After taking on provisions on Tristan da Cunha and the Falklands, they head South with Jeorling still on board. They also take aboard another mysterious sailor named Hunt who is eager to join the search for undisclosed reasons. The combined crews of *Halbrane* and *Jane* decide to try to make it north in their newly acquired boat. They make good progress until they notice the appearance of strong magnetic forces. They find the source of it: the Ice Sphinx, a huge mountain magnetically charged by the particle streams that get focused on the poles through Earth's magnetic field. Here they find the remains of Hearn's team, which came to grief when the Ice Sphinx's immense magnetic forces attracted their iron tools and boat components to it and smashed them on its rocks. The boat of Jeorling and the others only escaped destruction because, being built by the natives, it contained no iron parts. At the foot of the Sphinx, they also find the body of Pym, who came to death the same way Peters died from grief on the same spot. The others embark again in their boat and finally reach the open ocean and are rescued.

An Antarctic Mystery (Annotated): the Sphinx of the Ice Fields Jules Verne,2021-04-23 An Antarctic mystery is based on the classic tale of horror Arthur Gordon Pym by Edgar Allen Poe and serves as a continuation of the story although it must be noted that this is not a work of horror Rather An Antarctic mystery begins in 1839 with the lead character and narrator Jeorling on the Kerguelen Islands to study wildlife He is ready to depart and learns that a ship the Halbrane is coming into port shortly Jeorling is done on the island and wants to depart on the Halbrane with no particular destination in mind The captain of the Halbrane Len Guy at first refuses but finally relents on the night before the ship sets sail Jeorling is uncertain as to why the strange captain had a change of heart but he wants to leave so he happily sets sail aboard the ship the next morning

An Antarctic Mystery; Or, the Sphinx of the Ice Fields: A Sequel to Edgar Allan Poe's the Narrative of Arthur Gordon Pym Jules Verne,2005-09-30 During his twilight years the French author Jules Verne 1828 1905 wrote two original sequels to books that had fired his own youthful imagination but which he felt to be incomplete Johann Wyss's Swiss Family Robinson and Edgar Allan Poe's The Narrative of Arthur Gordon Pym of Nantucket Arthur Gordon Pym 1845 was only one of many Poe stories which Verne admired no other single author had more impact on his writing Verne acknowledged this debt in his only major piece of literary criticism a detailed 1864 article entitled Edgar Poe and His Work Poe 1809 1849 was just emerging on the French literary scene in translation as Verne was writing his first plays and short stories Verne was familiar with a broad range of Poe's works the well remembered stories as well as many that are obscure today What is to be admired in Poe Verne wrote are the novelties of his situations the discussion of little known facts the observations of the unhealthy faculties of Mankind the choice of subject matter the ever strange personality of his characters their nervous sickly temperaments their ways of expressing themselves by bizarre interjections And yet among all these improbabilities exists at times a verisimilitude that grips the credulity of the reader
