*The Spiritual in Art* Judi Freeman, Carel Blotkamp, 1986 Traces the use of geometric signs by the Nabis and other French artists and relates this to the development of abstraction The author describes some of the sources of ideas about the symbolism of geometric signs in particular the writings of Helena P Blavatsky and traces the impact of these on the Nabis possibly through the stimulus of Gauguin whose paintings from his Brittany period encouraged a mystical conception of art in which sacred geometry figured as one component He goes on to discuss in detail the paintings of Paul Serusier Paul Ranson Maurice Denis Charles Filiger Jean Delville Frantisek Kupka and Mondrian **The Spiritual in Art** Maurice Tuchman, 1988

The Spiritual in Art: Abstract Painting 1890 - 1985 Los Angeles County Museum, 1986 *Bruce Nauman* Bruce Nauman, 2002-05-29 From the beginning I was trying to see if I could make art that did that Art that was just there all at once Like getting hit in the face with a baseball bat Or better yet like getting hit in the back of the neck You never see it coming it just knocks you down I like that idea very much the kind of intensity that doesn't give you any trace of whether you're going to like it or not Bruce Nauman Bruce Nauman's art is about heightened awareness awareness of spaces we usually don't notice the one under the chair out of which he made a sculpture and sounds we don't listen for the one in the coffin awareness of emotions we suppress or dread It's hard to feel indifferent to work like his Michael Kimmelman New York Times One of America's most important artists Bruce Nauman has worked in a dazzling variety of media since the mid 1960s sculpture photography performance installation sound holography film and video What has been a constant throughout his career however is his persistence in exploring both art as an investigation of the self and the power of language to define that self The latest volume in the acclaimed Art Performance series is the first book to combine the key critical writings on Nauman with the artist's own writings and interviews with him as well as images of his work Bruce Nauman offers a multifaceted portrait of an artist whose determination to experiment with style and form has created a body of work as eclectic and perhaps more influential than that of any other living American artist *The Spiritual in Art* Edward Weisberger, 1986 *The Spiritual in Art: Abstract Painting 1890-1985* Edward Weisberger, 1986 *Modernism and the Spiritual in Russian Art* Louise Hardiman, Nicola Kozicharov, 2017-11-13 In 1911 Vasily Kandinsky published the first edition

of *On the Spiritual in Art* a landmark modernist treatise in which he sought to reframe the meaning of art and the true role of the artist. For many artists of late Imperial Russia a culture deeply influenced by the regime's adoption of Byzantine Orthodoxy centuries before questions of religion and spirituality were of paramount importance. As artists and the wider art community experimented with new ideas and interpretations at the dawn of the twentieth century their relationship with the spiritual broadly defined was inextricably linked to their roles as pioneers of modernism. This diverse collection of essays introduces new and stimulating approaches to the ongoing debate as to how Russian artistic modernism engaged with questions of spirituality in the late nineteenth to mid twentieth centuries. Ten chapters from emerging and established voices offer new perspectives on Kandinsky and other familiar names such as Kazimir Malevich, Mikhail Larionov and Natalia Goncharova and introduce less well known figures such as the Georgian artists Ucha Japaridze and Lado Gudiashvili and the craftswoman and art promoter Aleksandra Pogosskaia. Prefaced by a lively and informative introduction by Louise Hardiman and Nicola Kozicharow that sets these perspectives in their historical and critical context, *Modernism and the Spiritual in Russian Art: New Perspectives* enriches our understanding of the modernist period and breaks new ground in its re-examination of the role of religion and spirituality in the visual arts in late Imperial Russia. Of interest to historians and enthusiasts of Russian art culture and religion and those of international modernism and the avant garde it offers innovative readings of a history only partially explored, revealing uncharted corners and challenging long held assumptions.

Optical Poetry William Moritz, 2004. *Optical Poetry* is the first critical biography of the painter and experimental filmmaker Oskar Fischinger. Active in avant garde art circles in Germany between the two world wars, Fischinger and his family would emigrate to Los Angeles just ahead of the Nazis' denunciation of degenerate art. Fischinger's pioneering experiments in Visual Music and the melding of graphic arts, abstract design and sound were instrumental in shaping animation into an art and cinematic form and inspiring animators to pursue its aesthetic potential. An accomplished representational animator who eventually worked uneasily under contract for Paramount, MGM and Disney, Fischinger produced numerous abstract animated films over his lifetime, invented machines such as the Wax Machine and the Lumigraph for creating images and became an accomplished and influential abstract painter. A labor of love for author William Moritz and the product of decades of research, *Optical Poetry* also includes an extensive filmography and testimonials from those who knew or were influenced by Fischinger.

**Spiritual Art and Art Education** Janis Lander, 2013-12-17. This book is a study of contemporary spirituality as it is practiced in the world today, characterized by its secular and inclusive nature and applied to art and art education. It identifies the issues facing a formal introduction of contemporary spiritual concepts into a secular and multicultural arts educational environment. Lander begins by separating the notion of the spiritual from the study of organized religions. She uses examples of art from different cultures in contemporary spiritual systems, making the study a reference book for contemporary spirituality and spirituality in art education with usable definitions and practical examples.

suitable for scholars in art and visual studies art education and contemporary spirituality     The New Age Movement and the Biblical Worldview John P. Newport, 1998 John Newport delivers a comprehensive study of the impact of New Age beliefs on contemporary culture and on Christianity itself while also offering an effective biblical antidote to today's worldview crisis After first surveying the historical development of the New Age worldview from ancient times through important tendencies in nineteenth century America to recent Far Eastern influences Newport explores in depth eleven key areas of the New Age worldview and contrasts each area of belief with the traditional biblical worldview     **The Spiritual in Twentieth-Century Art** Roger Lipsey, 2011-10-20 Compelling well illustrated study focuses on the works of Kandinsky Mondrian Klee Picasso Duchamp Matisse and others Citations from letters diaries and interviews provide insights into the artists views 121 black and white illustrations     Form, Content, and Power Eric v.d. Luft, 2024-08-02 This book is meant to be disconcerting It asks many more questions than it answers but perhaps that is how philosophy should be especially if the questions posed are capable of rousing interest in a topic and stimulating individual thought It challenges sometimes attacks and even ridicules various traditions and theoretical positions in the history of the philosophy of art not for merely destructive or polemical purposes but rather to encourage insightful readers to proceed beyond these positions in their own minds Its arguments are not didactic and its conclusions are not dogmatic but evocative and provisional in the hope that its readers will confront them with a vigor at least equal to that with which these arguments and conclusions have already confronted the traditional opinions Its general aims are 1 to try to answer the basic questions What is art and What is good art and 2 to try to develop a unified theory of art i e a theory which would embrace and be equally applicable to all types and media of art from architecture to rock songs from symphonies to sculpture from Shakespeare to street graffiti Toward this second aim it examines the traditional concept of beauty and finds it incoherent undefinable philosophically unsatisfactory and incapable of serving as the ground of any rigorous unified theory of art because it cannot without equivocation be made equally applicable to all sorts of art Thus instead of beauty it proposes the concept of power which can be clearly and precisely defined and which is not only universally and univocally applicable but also rich enough as a concept to be able to shed light on the whole idea of art It is not a difficult book It is written for people at all levels of erudition from college frosh to tenured professors It does not aim primarily toward any level and tries not to pander but presents interpretations within the philosophy of art which should be both sufficiently original to provide grist for the professors speculative mills and at the same time sufficiently lucid for beginning students to be able to grasp the main ideas In short the book aims to become both a course textbook and a work which will be discussed at scholarly conferences and written about in journal articles At least with regard to this twofold aim to be simultaneously intelligible to tyros and interesting to experts and its consequent claim to a broad audience it is akin to such works as John Dewey's *Art as Experience* Robin Collingwood's *The Principles of Art* or Susanne Langer's *Philosophy in a New Key*     *The Cambridge Companion to Modernism* Michael Levenson, 2011-09-15 This

Companion has long been a standard introduction to the field This second edition is updated and enhanced with four new chapters addressing the key themes being researched taught and studied in modernism Its interdisciplinary approach is central to its success as it brings together readings of the many varieties of modernism Chapters address the major literary genres the intellectual religious and political contexts and parallel developments in film painting and music The catastrophe of the First World War the emergence of feminism the race for empire the conflict among classes the essays show how these events and circumstances shaped aesthetic and literary experiments In doing so they explain clearly both the precise formal innovations in language image scene and tone and the broad historical conditions of a movement that aspired to transform culture

Studies on Western Esotericism in Central and Eastern Europe Nemanja Radulović, Karolina Maria Hess, 2019-06-01 These papers examine how occult and esoteric themes appear in visual and verbal media connecting to intellectual history literature the arts present day pop culture and religious practices The topics range from the witchcraft motives in the love poetry of the 15th century Humanist poet Conrad Celtis through the activities of Polish and Russian theosophists Croatian Greek Polish painters of the spiritual the philosophy of wine by the Hungarian esoteric philosopher Béla Hamvas to contemporary Serbian magic and neo shamanism Two studies touch upon the influence of Freemasonry and the Kabbalah in Western esotericism and although these are not specifically Central European topics they provide parallel perspectives to what the other papers of the collection are investigating
