Space Anna Hackett, 2016-04-25 [An introduction to astrology ... With numerous emendations ... by Zadkiel](#) William Lilly, 1860 *Horary for Beginners* S.C. Kursija, This highly specialized astrological application is ancient It deals with specific questions and methods of answering these questions based on Tajik Yogas formed in the horoscope of that time at which the question was asked The basis of the horary chart is the time when your question is put to the astrologer and from this a map of the sky is erected Personal details such as your date place and time of birth are not needed and so for those who do not have this information horary provides a method of dealing with problems Horary astrology has its own strict system The position of and aspects to the moon are of prime importance The person asking the question or querent is represented by the ruler of the first house in the horoscope formed at the time of question Planetary aspects are considered more important than in other branches of astrology although it is the planetary rulers of the houses in question that take precedent in analysis Typically a horary chart is read by first assigning the thing asked about the quesited to a particular house in the chart For instance asking Where is my lost dog would be represented by the sixth house as it is the house that governs small animals traditionally smaller than a goat Whenever anyone who does not have his her birth details approaches the Astrologer in such case the astrologer makes his horary chart and answers his her queries Horary astrology is based on

the notion that the question and intensity to find its answer arises in the mind as a result of the divine command and at that particular moment the planetary locations in the cosmos remains favorable Sometimes a native has the queries related to his her relatives friends or neighbors even without having their birth details Horary Astrology has the adequate and significant tools based on divine principles to answer even such questions Horary Astrology has the ability to answer any question whether it is regarding the lost articles return of the person from abroad or any place the time to get cure of a sick person etc This book gives vivid knowledge of not only the basic tenets of Horary Astrology but also explains the related planets signs and houses for a specific query related to a particular subject This book has specially been designed for the students of All India Federation of Astrologers Societies but the other students interested to know this subject can also get benefitted equally with the study of this book
