The First Brain Oné R. Pagán, 2014 Planarians a class of flatworm are extraordinary they possess the remarkable ability to regenerate lost body parts including complete regeneration of the nervous system If cut into pieces each piece of the planarian can regenerate into a complete organism They are also unique among invertebrates in that they display addiction like behaviors to many drugs abused by humans Because of these distinct neurological traits the planarian is often used as an animal model in neurological research being used most recently for developments in neuropharmacology The First Brain is a discussion of how planarians have been used in neuropharmacology and what role they have played in scientific developments that have a high impact on our culture Planarians have been the animal models for research in drug addiction antidepressant development and various other topics in biology neurobiology and even zoology Pagán uses these flatworms as a framework to explore the history of biological research The book provides accessible background information on how biomedical research is impacted by evolution and defines neurobiology and neuropharmacology in ways that are easy to understand At the same time Pagán provides enough detail for the book to be useful for scientists working in various subsections of biology The planarian has played a key role in the history biological neuropharmacological and zoological research and has even made appearances in a few unexpected places in popular culture On Pagán explores all these roles and shows us why the planarian truly is one of the most extraordinary and influential organisms in scientific research today

Storytelling across the Primary Curriculum Alastair K Daniel, 2013-06-17 Starting from the question what is a story Storytelling Across the Primary Curriculum leads the reader through the theory and

practise of storytelling as an educational method a method taught by the author over the last ten years through Primary English teaching programmes This practical book gives teachers the skills and confidence to use storytelling and the spoken word in new and exciting ways in the classroom It will also give teachers the confidence to put down the book and trust themselves to tell rather than read a story It provides a wealth of examples of cross curricular teaching opportunities including a section on the ways in which the teaching of phonics can be embedded in the real language of story Storytelling Across the Primary Curriculum is ideal for trainee and practicing primary school teachers who want to develop their classroom practice within the field of storytelling Students on BA Primary BEd and PGCE courses particularly those specialising in English will also benefit from this book s stimulating and intuitive approach to teaching English language and literacy

Classroom Management Through Behavioral Interventions That Work : Tier Two Strategies Laura A. Riffel, Ph.D., Jessica R. Eggleston, Doctoral Candidate, 2016-08-29 This book focuses on tier two strategies for classroom management When teachers feel empowered with information classroom management is easier This book is filled with specific strategies based on Dr Riffel s Triple T Triple R chart The three T s are 1 Trigger what sets the behavior in motion 2 Target what behavior do you want to target for change and 3 impacT what is the student gaining or escaping by engaging in this behavior The three R s to combat the three T s are 1 Revise the environment set the student up for success by changing the environment 2 Replace the behavior Teach the student what you want to see instead of telling them what not to do and 3 Reframe your response change how you react to the target behavior and feed the replacement behavior When these three formats are followed the behavior dissipates This book also includes specific strategies on many common classroom target behaviors This book coincides with Dr Riffel s Tier Two Training
