The Strange Death Of Van Gogh:

The Strange Death of Vincent Van Gogh Ted Morgan, 2018-01-24 Vincent Van Gogh perhaps the greatest and most influential painter of the nineteenth century committed suicide at the age of thirty seven He sold only one painting in his lifetime Was he motivated by mental illness or despair when he put a revolver to his chest or was his physician partly to blame Here in this short form book by Pulitzer Prize winning biographer and historian Ted Morgan is the intriguing answer

The Strange Death of Europe Douglas Murray, 2017-05-04 THE SUNDAY TIMES NUMBER ONE BESTSELLER A WATERSTONES POLITICS PAPERBACK OF THE YEAR 2018 The Strange Death of Europe is a highly personal account of a continent and culture caught in the act of suicide Declining birth rates mass immigration and cultivated self distrust and self hatred have come together to make Europeans unable to argue for themselves and incapable of resisting their own comprehensive change as a society This book is not only an analysis of demographic and political realities but also an eyewitness account of a continent in self destruct mode It includes reporting from across the entire continent from the places where migrants land to the places they end up from the people who appear to welcome them in to the places which cannot accept them Told from this first hand perspective and backed with impressive research and evidence the book addresses the disappointing failure of multiculturalism Angela Merkel s U turn on migration the lack of repatriation and the Western fixation on guilt Murray travels to Berlin Paris Scandinavia Lampedusa and Greece to uncover the malaise at the very heart of the European culture and to hear the stories of those who have arrived in Europe from far away In each chapter he also takes a step back to look at the bigger issues which lie behind a continent s death wish answering the question of why anyone let alone an entire civilisation would do this to themselves He ends with two visions of Europe one hopeful one pessimistic which paint a picture of Europe in crisis and offer a choice as to what if anything we can do next

The Glory of Van Gogh Nathalie Heinich, 1997-11-16 The author explores how and why the impoverished and mentally tormented Van Gogh came to be glorified shortly after his suicide at the age of 37 Apart from describing his life she also explores the economics of the art market In an appendix attention is given to Van Gogh and art criticism in France 1888 1901

Van Gogh's Gardens Derek Fell, 2001-04-12 Of the passions driving Vincent Van Gogh s extraordinary art one of the greatest was his abiding preoccupation with flowers gardens and the natural landscape Living in poverty however he was never able to translate the breathtaking visions on his canvas into an actual garden Now thanks to Derek Fell s marvellous images insightful writing and reverent adherence to Van Gogh s original botanical ideas Van Gogh s gardens have finally come to brilliant life Drawing inspiration from his dazzling paintings of sunflowers irises and Provencal landscapes as well as from the eloquent letters he wrote to his brother and sister about colour harmonies and planting ideas Fell has lovingly created and photographed the living embodiment of Van Gogh s singular reflections on colour and nature More than 130 original colour photographs show the roots of his ideas in the French landscape today and reveal exactly how those ideas will look in our

own backyards including contemporary gardens that embrace such unconventional Van Gogh inspired pairings as geraniums with poppies and heliotrope with roses The book also showcase twenty of the master s most stunning paintings of landscapes and flowers *Europe after Empire* Elizabeth Buettner,2016-03-24 A pioneering comparative history of European decolonization from the formal ending of empires to the postcolonial European present **The Oxford Handbook of Dutch Politics** ,2024-09-25 The Oxford Handbook of Dutch Politics provides a comprehensive longitudinal overview of the state of the art of academic research on the Dutch political system its origins and historical development its key institutions main fault lines pivotal processes and key public policy dynamics In each of the chapters researchers take stock of what if anything has changed over time how scholars have conceptualized and studied these dynamics and what key factors can account for the developmental patterns found to be at play Notwithstanding its considerable degree of constitutional and institutional stability Dutch politics has seen considerable step changes and occasional upheavals across the last half century Influenced by long term demographic socio economic and cultural shifts the old social cleavages have waned New social identities and dividing lines such as ethnicity education place and gender have influenced Dutch citizens political attitudes and behaviours including their voting patterns The media landscape and the information environment have been altered by new technologies that politicians and citizens alike have to navigate This has produced changes in such pivotal components as the party system coalition formation and management process and executive legislative relations and many others Moreover public policy paradigms and the political coalitions that sustained them have ascended and lost traction in most of the eleven policy domains discussed in the Handbook In all this volume provides unique and indispensable insights into stability and change in a political system that once gained notoriety as an archetype of a consensual or consociational democracy *I'm Out of Here: The Memoir of a Drunk* Mike Muri,2015-09-11 What you have in your hands is the story of what author bartender painter raconteur Mike Muri used to be like and it ain t pretty In fact it is one of the most graphic harrowing descriptions of the life of an alcoholic you will ever read If like me you also think it is howlingly funny bitterly perceptive and disturbingly familiar then you may well be an alcoholic too **Creativity, Madness and Civilisation** Richard Pine,2021-04-16 What is creativity And what is madness How far can we interpret an artist s work through our knowledge of his or her mental state and how far can we infer a mental state from a work of art When does a work of art cease to be a personal statement by the artist and become a matter of public concern The contributions to this book attempt to answer some of these questions They come from a wide range of disciplines and experiences a practising psychiatrist a practising artist suffering from reactive depression and critics working in literature film music and the visual arts The essays include discussions of the myth of creativity the music of Robert Schumann the borders of sanity in the writing of Lawrence Durrell the insane truth of Virginia Woolf the meeting of doctor and patient in the poetry of Anne Sexton mood disorders in the fiction of David Foster Wallace love and madness in the poetry of Hafiz of Shiraz and the paintings of Adolf W lfl Central to this discussion of creativity

madness and civilisation is the difficulty of establishing an appropriate and effective vocabulary and mindset between critics and clinical psychiatrists which would enable them to work together in understanding mental disturbance in creative artists

This Strange Eventful History Paul Bradley,2011 Precarious International Multicultural Education:Hegemony, Dissent and Rising Alternatives Handel Kashope Wright,Michael Singh,Richard Race,2012-09-22 Multiculturalism and multicultural education are at a paradoxical moment There is work that continues as if the multicultural hegemony was still intact and on the other hand work articulated as if multiculturalism was decidedly passe The essays in this collection will be of considerable interest to academics policy makers and students of both multiculturalism and multicultural education principally because they touch on both perspectives but concentrate for the most part on the thorny problematic of the workings of multicultural education in its present precarious moment Given the renewed urgent attacks in various western countries the cottage industry of death of multiculturalism texts and the rise of the interculturalism transnationalism diaspora alternatives is multiculturalism dying Are the ends of multiculturalism the management or celebration of diversity representation and recognition for all in society creation of just and equitable communities at the global national and local school classroom levels better theorized and realized through the ascendant alternatives Representing the precarious moment in Canada Ireland Australia the United States and the United Kingdom the essays in this collection address these questions and both depict and trouble hegemonic multicultural education and contrast it with its supposed successor regimes
