## **The Sunna And Shi'a In History:**

**The Sunna and Shi'a in History** O. Bengio, 2014-12-16 Sunni Shi'i relations have undergone significant transformations in recent decades. In order to understand these developments, the contributors to the present volume demonstrate the complexity of Sunni Shi'i relations by analyzing political, ideological, and social encounters between the two communities from early Islamic history to the present.

*The Higher Objectives of Islamic Theology* Mohammed Gamal Abdelnour, 2022 In *The Higher Objectives of Islamic Theology*, Mohammed Gamal Abdelnour introduces a new field of inquiry to the Islamic tradition by basing it on a scheme of core values: Truth, Justice, Beauty, instead of a scheme of hudud penalties, arguing that the tradition's current overemphasis on law and justice has relegated both theology and truth and Sufism and beauty to the periphery of the tradition.

*The Taliban and Islamic State* Selim Öztürk, 2024-12-06 This unique study pioneers a comparative analysis between two major jihadist entities, the Taliban and the Islamic State, focusing on their state-building endeavors. It highlights the Taliban's historical state-building efforts in the 1990s as a model for understanding similar initiatives by jihadist groups such as the Islamic State. Departing from existing literature that often examines individual jihadist groups in isolation, this study adopts a comparative approach, offering unique insights into the broader phenomenon of jihadist groups and their attempts at state-making. Through detailed examinations of the Taliban and the Islamic State in Afghanistan and elsewhere, and the impacts of other regional actors, the study sheds light on the resurgence of these movements even after apparent decline, as witnessed with the resurgence of the Taliban. The book will be an invaluable reference for researchers, scholars, politicians, and diplomats concerned with the region and with the aspirations of terror groups to engage in state building.

*Sectarian Gulf* Toby Matthiesen, 2013-07-03 As popular uprisings spread across the Middle East, popular wisdom often held that the Gulf States would remain beyond the fray. In *Sectarian Gulf*, Toby Matthiesen paints a very different picture, offering the first assessment of the Arab Spring across the region. With first-hand accounts of events in Bahrain, Saudi Arabia, and Kuwait, Matthiesen tells the story of the early protests and illuminates how the regimes quickly suppressed these movements. Pitting citizen against citizen, the regimes have warned of an increasing threat from the Shia population. Relations between the Gulf regimes and their Shia citizens have soured to levels as bad as 1979, following the Iranian revolution. Since the crackdown on protesters in Bahrain in mid-March 2011, the Shia threat has again become the catchall answer to demands for democratic reform and accountability. While this strategy has ensured regime survival in the short term, Matthiesen warns of the dire consequences this will have for the social fabric of the Gulf States, for the rise of transnational Islamist networks, and for the future of the Middle East.

**The Mission of the Portuguese Augustinians to Persia and Beyond (1602-1747)** John M. Flannery, 2013 John M. Flannery describes the establishment and activities of the Portuguese Augustinian mission in Persia.

*The Other Saudis* Toby Matthiesen, 2015 This book traces the politics of the Shia in the oil-rich Eastern Province of Sunni-dominated Saudi Arabia since the nineteenth century.

**Informal Politics in the Middle**

**East** Suzi Mirgani,2021-12-01 The culture of politics within any system of governance is influenced by how state and society interact and how these relationships are mediated by existing political institutions whether formal or informal The chapters in this volume highlight two broad types of informal political engagement in the Middle East civil action that works in tandem with the state apparatus and civil action that poses a challenge to the state In both cases these activities can and do achieve tangible results for particular groups of people as well as for the state For many informal politics and civil mobilization are not a choice but a necessity to secure collectively some kind of social security through communal reciprocity and everyday activism Ironically Middle Eastern authorities often turn a blind eye to informal organizing because self help schemes allow certain social groups to survive reducing their instinct to make demands of or seek support from the state People are discouraged from political action and dissent yet they are simultaneously encouraged to seek their own betterment often leading to politicized groups and associations By analyzing these formations the contributors shed light on informal politics in the region
