Gastro-Postcolonialism Metaphysical Symbols in Brand Communication Oya AYAN,2023-09-05 This thesis brings together three topics that we want to search brand communication gastronomy metaphysics After completing my master s degree in marketing communications what I always had in mind was the new trends in advertising communication with the globalization of the 21st century In the design of the advertisement not only the use of elements in communication technologies but also the philosophical background in its fabric attracted my attention In this context I began to sense that there might be mythological approaches in the chemistry of advertising messages that gained importance in social media In the postmodern environment of the 21st century food nutrition culinary arts and to put it briefly gastronomy became the dominant language of communication Moreover it caused kitchen wars by becoming politicized In line with my interest in gastronomy I wanted to focus on food advertisements I started to ask myself to what extent the fast food trend that marked the 21st century was changing the Global Society Interestingly I started to observe that there were metaphysical images that were reflected from ancient wisdom to the present day in McDonald s brand communication This problem which has not been studied much yet was an important exercise for me in terms of analyzing the Global Society as a doctoral thesis I can say that doing the analysis in the light of semiology as a method has broadened my horizon by directing me to an interdisciplinary perspective I would like to acknowledge Communication Sciences and the Internet Institute which allowed me to make such a significant study Prof Dr Mete amdereli who supported me with great excitement in all phases of my thesis Prof Dr Emine Yava gel who made great contributions to deepen my research subjects in the monitoring of the thesis In addition I would like to thank Prof Dr Mim Kemal ke from whose suggestions I benefited in the historical context I am also indebted to my colleagues and friends especially my family who buoyed me up and supported me during the research and writing process of my thesis which lasted more than 2 years I hope this study will be useful and inspire new studies in this field

Santa Claus Worldwide Tom A. Jerman,2020-05-25 This is a comprehensive history of the world s midwinter gift givers showcasing the extreme diversity in their depictions as well as the many traits and functions these characters share It tracks the evolution of these figures from the tribal priests who presided over winter solstice celebrations thousands of years before the birth of Christ to Christian notables like St Martin and St Nicholas to a variety of secular figures who emerged throughout Europe following the Protestant Reformation Finally it explains how the popularity of a poem about a miniature sleigh and eight tiny reindeer helped consolidate the diverse European gift givers into an enduring tradition in which American children awake early on Christmas morning to see what Santa brought Although the names appearance attire and gift giving practices of the world s winter solstice gift givers differ greatly they are all recognizable as Santa the

personification of the Christmas and Midwinter festivals Despite efforts to eliminate him by groups as diverse as the Puritans of seventeenth century New England the Communist Party of the twentieth century Soviet Union and the government of Nazi Germany Santa has survived and prospered becoming one of the best known and most beloved figures in the world

dihybrid cross is a cross between two individuals with two observed traits that are controlled by two distinct genes the idea
of a dihybrid cross came from gregor mendel when he observed pea plants that were either yellow or green and either round
or wrinkled crossing of two heterozygous individuals will result in predictable ratios for both genotype and phenotype in the
offspring the expected phenotypic ratio of crossing heterozygous parents would be 9 3 3 1 deviations from t
