Coastal Environmental Profile : Sulu Sea, Sabah, Malaysia Ejria Salleh, Andy Russel Mojiol, Ridzwan Abdul Rahman, 2021-10-28 Coastal Environmental Profile of Sulu Sea is providing baseline information from various fields of marine science particularly marine flora and fauna within the islands and coastal areas of the Sulu Sea This book can be used as a reference to support the development and management of Tun Mustapha Park The authors of each chapter of this book have presented significant insights into the status of marine bio resources and threats to marine resources This book is also especially targeted to support the scientific database of Coral Triangle Initiative CTI and contribute to achieving the target stipulated in Malaysia's National Plan of Action for CTI

Rethinking Fisheries Governance Hoang Viet Thang, 2017-08-11 This book explores how the state can foster collective action by fisher's communities in fisheries management It presents a different perspective from Elinor Ostrom's classic work on the eight institutional conditions that foster collective action in natural resource management and instead emphasizes the role of the state in fisheries co management engaging a state centric notion of meta governance It argues that first the state is required to foster collective action by fishers and secondly that the current fisheries co management arrangements are state centric The study develops these arguments through the analysis of three case studies in Japan Vietnam and Norway The author also makes a theoretical contribution to governance literature by developing Ostrom's society centric framework in a way which makes it more amenable to the analysis of state capacity and government intervention in a comparative context This book will appeal to students and scholars of global governance fisheries management co management and crisis management as well as practitioners of fisheries management
