Boyce, 2018-07-17 Realistic representation of the speech of the lower classes in ancient literature is largely confined to the comic genres and Petronius realism in this area is more thorough going than that of any other ancient author A vast scholarly literature has grown up around the question of how faithfully the speeches of Petronius freedmen reflect characteristics of actual popular speech this literature is reviewed and evaluated A survey of the

phonological morphological lexical and syntactic peculiarities in these speeches is then undertaken in which they are compared with other vulgar Latin sources such as the Pompeian inscriptions Petronius is in fact one of our most important early sources for the study of popular Latin The way in which Petronius used specific varieties of non standard Latin to characterize different freedmen speakers is explored Petronius has subtly modulated his freedmen s speeches to reflect differing emotional states and the different attitudes of the speakers toward their social position The present study is the first comprehensive treatment of the subject undertaken in over forty years in any language and the only one in English **The**

philosophy science theology and culture all done in typical Jesuit fashion always in various and foreign contexts This collection is akin to others in its linking of religion and science fiction but it is unique in its concentration on the Jesuits and science fiction This collection will be of interest to scholars working and researching in the field of science fiction studies and would be suitable for courses on science fiction But it will also be of interest and accessible to those of us who simply love science fiction for its power to explore other worlds and in this case to take some of the deepest human reflections namely those on God morals and culture lift them up and see what forms they may take on other worlds
