The Works of Jack London: Novels, Short Stories, Poems, Plays, Memoirs & Essays Jack London, 2023-11-26 In The Works of Jack London Novels Short Stories Poems Plays Memoirs Essays readers are invited

to explore the multifaceted literary corpus of one of America's most influential writers. This comprehensive compilation reflects London's mastery of narrative structure and vivid prose encapsulating themes of adventure, survival, and the human condition. The collection spans diverse genres showcasing London's ability to intertwine rugged naturalism with deep psychological insights, often set against the backdrop of the Alaskan wilderness and industrialized society. His diction is rich and his urgency palpable, offering a poignant critique of capitalism and an exploration of unvarnished human instincts. Jack London, born in 1876, was a trailblazer of the proletarian literature movement and a prominent figure in American literary history. His experiences working in various labor roles combined with his adventurous spirit and love for nature profoundly influenced his writing. Additionally, London's commitment to social change and dedication to portraying the plight of the working class adds depth and authenticity to his narratives, revealing his belief in the power of literature to inspire action. This compelling anthology is a must-read for those seeking to understand the breadth of London's ambition and the historical context that shaped his worldview. Whether you are a seasoned admirer or new to his work, this collection offers invaluable insights into the complexities of human life and the struggles of existence in a rapidly industrializing world.

KEY FEATURES

- Create a Lakehouse using Databricks, including ingestion from source to Bronze, Refinement of Bronze items to business-ready Silver items using incremental methods, Construct Gold items to service the needs of various business requirements.

DESCRIPTION

The Databricks Lakehouse is groundbreaking technology that simplifies data storage, processing, and analysis. This cookbook offers a clear and practical guide to building and optimizing your Lakehouse to make data-driven decisions and drive impactful results. This definitive guide walks you through the entire Lakehouse journey from setting up your environment and connecting to storage to creating Delta tables, building data models, and ingesting and transforming data. We start off by discussing how to ingest data to Bronze, then refine it to produce Silver. Next, we discuss how to create Gold tables and various data modeling techniques often performed in the Gold layer. You will learn how to leverage Spark SQL and PySpark for efficient data manipulation, apply Delta Live Tables for real-time data processing, and implement Machine Learning and Data Science workflows with MLflow, Feature Store, and AutoML. The book also delves into advanced topics like graph analysis, data governance, and visualization, equipping you with the necessary knowledge to solve complex data challenges. By the end of this cookbook, you will be a confident Lakehouse expert capable of designing, building, and managing robust data-driven solutions.

WHAT YOU WILL LEARN
