Making England Western Saree Makdisi,2014-01-10 The central argument of Edward Said s Orientalism is that the relationship between Britain and its colonies was primarily oppositional based on contrasts between conquest abroad and domestic order at home Saree Makdisi directly challenges that premise in Making England Western identifying the convergence between the British Empire s civilizing mission abroad and a parallel mission within England itself and pointing to Romanticism as one of the key sites of resistance to the imperial culture in Britain after 1815 Makdisi argues that there existed places and populations in both England and the colonies that were thought of in similar terms for example there were sites in England that might as well

have been Arabia and English people to whom the idea of the freeborn Englishman did not extend The boundaries between us and them began to take form during the Romantic period when England became a desirable Occidental space connected with but superior to distant lands Delving into the works of Wordsworth Austen Byron Dickens and others to trace an arc of celebration ambivalence and criticism influenced by these imperial dynamics Makdisi demonstrates the extent to which Romanticism offered both hopes for and warnings against future developments in Occidentalism Revealing that Romanticism provided a way to resist imperial logic about improvement and moral virtue Making England Western is an exciting contribution to the study of both British literature and colonialism **The Making of a Medieval Bestseller** Judah D.

Galinsky, 2025-05-15 In 1277 Rabbi Isaac of Corbeil produced a concise work of accessible religious law This handbook Amudei Golah Pillars of Exile began as a list of religious commandments mitzvot meant to be recited weekly It was divided into seven pillars drawn primarily from the limbs of the human body and its activities heart hand mouth monetary transactions etc and dealt exclusively with laws relevant to Jews living in the Diaspora in medieval times This handbook of religious law written in Hebrew became the most widespread book of its kind during the late Middle Ages within the various French and German speaking Jewish communities known as Ashkenaz Nearly two hundred medieval copies of the work are found in public libraries and private collections today an astounding number for a Hebrew work at the time In The Making of a Medieval Bestseller Judah Galinsky approaches his study in three parts The first surveys the ideological and cultural reasons that Rabbi Isaac composed the work and describes how the book evolved over time The second part traces the book's impressive circulation and analyzes the various reasons behind the book's success suggesting that readers who were outside the scholarly class may have been key to the work's popularity In the third part Galinsky addresses the readers themselves who ordered copies of the work from a scribe Galinsky discerns the cultural profile of the patrons who commissioned the codex by paying attention to the books they requested to have copied alongside it or its fellow travelers This study is a history of a medieval bestseller It describes how it came into being grew and evolved and also charts its circulation explains its unique appeal and depicts its readers English Mechanic and Mirror of Science, 1889 *Fostering Human Capital in*

the Gulf Cooperation Council Countries Sameh El-Saharty, Igor Kheyfets, Christopher Herbst, Mohamed Ihsan Ajwad, 2020-07-08 The formation of human capital the knowledge skills and health that people accumulate over their lifetimes is critical for the six Gulf Cooperation Council GCC countries Human capital contributes not only to human development and employment but also to the long term sustainability of a diversified economic growth model that is knowledge based and private sector driven This approach is critical given that income from oil and gas will eventually decline and that the nature of work is evolving in response to rapid technological changes in turn demanding new skill sets The GCC governments have demonstrated their strong political will for this shift four of them are among the first countries to join the World Bank's Human Capital Project a global effort to improve investments in people as measured by the Human Capital

Index The GCC countries face four main challenges Low levels of basic proficiency among schoolchildren A mismatch between education and the labor market A relatively high rate of adult mortality and morbidity A unique labor market in which wages in the public sector are more generous than in the private sector and government employment of nationals is virtually guaranteed To address these challenges this report outlines four strategies in a whole of government approach Investing in high quality early childhood development Preparing healthier better educated and skilled youth for the future Enabling greater adult labor force participation Creating an enabling environment for human capital formation These strategies are based on best practices in other countries and feature some of the GCC countries plans including their national Visions to take their economies and societies further into the twenty first century With the COVID 19 pandemic the GCC countries face additional challenges that may worsen some preexisting vulnerabilities and erode human capital In response the GCC governments have taken multiple measures to protect their populations health and their economies Any country s decision to reopen its economy needs to closely consider public health consequences to avoid a resurgence of infections and any further erosion of its human capital The COVID 19 crisis underscores that the need to accelerate and improve investment in human capital has never been greater Once the GCC countries return to a new normal they will be in a position to achieve diversified and sustainable growth by adopting and then tailoring the strategies presented in this report
