Teaching Academic Writing in European Higher Education

Lennart Björk, Gerd Bräuer, L. Rienecker, Peter Stray Jørgensen, 2005-12-30 DAVID R. RUSSELL English Department of Iowa State University U S A I was fortunate to attend as a visitor from the U S the first European Association for the Teaching of Academic Writing EATAW conference in 2001 at Groningen I was struck by the similarities in the challenges higher education faces on both sides of the Atlantic in terms of developing students' academic writing and students learning through writing It is indeed an international problem But I was equally struck by the profound differences in responding to these challenges among institutions disciplines and even within disciplines The essays in this extraordinary volume address a growing demand for help with academic writing on the part of students and academic staff alike And they do so in ways that bring fresh approaches not only to Europeans who have only recently begun to study academic writing but also to researchers and academic staff in the U S where we have a century old tradition of attention to the problem but are much in need of these fresh approaches Academic writing has become a problem in higher education all around the world because higher education sits smack between two contradictory pressures On one end far more students and far more diverse students come streaming into higher education bringing in a far greater diversity of linguistic resources often interpreted as standards are falling as Frank Haacke Tente point out

New Formalisms and Literary Theory V. Theile, L.

Tredennick, 2013-04-11 Bringing together scholars who have critically followed New Formalism's journey through time space and learning environment this collection of essays both solidifies and consolidates New Formalism as a burgeoning field of literary criticism and explicates its potential as a varied but viable methodology of contemporary critical theory

Teaching Arguments Jennifer Fletcher, 2023-10-10 No matter where students live after graduation one of the most essential tools we can teach them is how to comprehend analyze and respond to arguments Students need to know how writers and speakers' choices are shaped by elements of the rhetorical situation including audience occasion and purpose In *Teaching Arguments: Rhetorical Comprehension Critique and Response* Jennifer Fletcher provides teachers with engaging classroom activities writing prompts graphic organizers and student samples to help students at all levels read write listen speak and think rhetorically Fletcher believes that with appropriate scaffolding and encouragement all students can learn a rhetorical approach to argument and gain access to rigorous academic content *Teaching Arguments* opens the door and helps them pay closer attention to the acts of meaning around them to notice persuasive strategies that might not be apparent at first glance When we analyze and develop arguments we have to consider more than just the printed words on the page We have to evaluate multiple perspectives the tension between belief and doubt the interplay of reason character and emotion the dynamics of occasion audience and purpose and how our own identities shape what we read and write Rhetoric teaches us how to do these things *Teaching Arguments* will help students learn to move beyond a superficial

narrative the negotiation takes place in the mind of the text producer between the text producer and his/her mental representation of the mind of the absent or inactive interlocutor. The cognitive mechanisms that underlie face-to-face communication thus continue to shape text production and comprehension in non-interactive contexts. Most of the papers in this volume were originally presented at the Symposium on Coherence in Spontaneous Text held at the University of Oregon in the spring of 1992.

Agents and Artificial Intelligence Ana Paula Rocha, Luc Steels, Jaap van den Herik, 2025-04-28. This two-part volume LNCS constitutes the refereed post-proceedings of the 16th International Conference ICAART 2024 in Rome, Italy, in February 2024. Language Sampling With Children and Adolescents Marilyn A. Nippold, 2020-12-18. The third edition of *Language Sampling With Children and Adolescents: Implications for Intervention* provides guidelines for analyzing spoken and written language production in both children and adolescents. The text, which is geared for graduate students and practicing speech language pathologists, has been expanded to include preschool children (ages 3-4 years) and school-age children (ages 5-11 years) in addition to adolescents (ages 12-18 years). Included within the book are numerous figures, tables, and practical exercises with answer keys to help readers understand how to analyze the content and structure of the different discourse genres: conversational, narrative, expository, and persuasive, and how to utilize this information in establishing functional language goals and implementing intervention activities for children and adolescents with language disorders. The ability to express oneself with accuracy, clarity, and efficiency is essential for success in social, academic, and vocational settings. *Language Sampling With Children and Adolescents: Implications for Intervention, Third Edition* is a must-have resource for those working with preschool children, school-age children, and adolescents. Includes grammar review and exercises. New to the Third Edition: Now also covers preschool and school-age children. Each genre (conversation, narration, exposition, persuasion) now has its own chapter. Grammar review and exercises with answer keys have been expanded. Includes greater number of language samples to analyze with answer keys. Includes more normative data for spoken and written language production. Offers greater direction for intervention. Includes more case studies. All chapters have been updated to reflect recent research.

Rhetoric and Pedagogy Winifred Bryan Horner, Michael Leff, Robert Gaines, Jean Dietz Moss, Beth S. Bennett, 2013-12-02. To provide a view of the history of western rhetoric, this volume presents original articles by a number of world-renowned scholars representing different countries and varying viewpoints. In discussing the status of the historical perspectives on rhetoric, these international scholars also present a tribute to James J. Murphy, whose scholarship and service did much to shape the field. The book will introduce new insights into western European rhetoric and its connections with English rhetoric.

Introduction to Scholarship in Modern Languages and Literatures David G. Nicholls, 2015-01-01. The third edition of the

MLA's widely used *Introduction to Scholarship in Modern Languages and Literatures* features sixteen new essays by leading scholars. Designed to highlight relations among languages and forms of discourse, the volume is organized into three sections. *Understanding Language* provides an overview of the field of linguistics with special attention to language acquisition and the social life of languages. *Forming Texts* offers tools for understanding how speakers and writers shape language; it examines scholarship in the distinct but interrelated fields of rhetoric, composition, and poetics. *Reading Literature and Culture* continues the work of the first two sections by introducing major areas of critical study. The nine essays in this section cover textual and historical scholarship, interpretation, comparative cultural and translation studies, and the interdisciplinary topics of gender, sexuality, race, and migrations, among others. As in previous volumes, an epilogue examines the role of the scholar in contemporary society. Each essay discusses the significance, underlying assumptions, and limits of an important field of inquiry; traces the historical development of its subject; introduces key terms; outlines modes of research now being pursued; postulates future developments; and provides a list of suggestions for further reading. This book will interest any member of the academic community seeking a review of recent scholarship, while it provides an indispensable resource for undergraduate and graduate students of modern languages and literatures.

Deliberative Rhetoric Christian Kock, 2017-11-09 Christian Kock's essays show the essential interconnectedness of practical reasoning, rhetoric, and deliberative democracy. They constitute a unique contribution to argumentation theory that draws on and criticizes the work of philosophers, rhetoricians, political scientists, and other argumentation theorists. It puts rhetoric in the service of modern democracies by drawing attention to the obligations of politicians to articulate arguments and objections that citizens can weigh against each other in their deliberations about possible courses of action.

Educational Research Burke Johnson, Larry Christensen, 2012 *Educational Research: Quantitative, Qualitative, and Mixed Approaches*, Fourth Edition, is a graduated text that introduces readers to the fundamental logic of empirical research and the sources of research ideas. Detailed descriptions guide students through the design and implementation of actual research studies with a balanced examination of quantitative, qualitative, and mixed research. Definitions of key terms are provided in the margins for easy reference and to help students understand the multiple research methods and strategies used in education and related fields.

New Features: Student study site materials are integrated within the text with the use of marginal icons depicting interactive concept maps, journal articles, and tools and tips. New Action Research activity for each chapter is included. A chapter on Writing the Research report incorporates changes in new edition of the Publication Manual of the APA and includes a sample manuscript using APA style. New exhibits on Egon G. Guba and Donald T. Campbell and a new table on applying qualitative research validity strategies are incorporated. New material on research paradigms, types of plagiarism, using free software for random sampling, and assignment: nomological vs. ideographic causation are integrated. Several chapters are slightly shortened and made simpler without sacrificing any of the book's rigor.
