Brennor,2014-06-17 Y S Brenner is an economist whose main concern is with development and this attitude is reflected in his approach to economic history He begins this seminal study in the era of the Reformation in Europe and bases it on the hypothesis that once started economic progress will spread over ever increasing parts of the earth wherever and whenever conditions become suitable From this point of view he examines the nature of the impediments which prevent the more rapid and general progress of mankind towards greater material affluence while at the same time considering the positive growth promoting factors in the various economies Thus he provides an analysis of economic progress in the developed countries showing which natural social political and cultural forces promoted such progress and which delayed or

hindered it He attempts to explain why European nations took several decades to emulate the achievements of Britain and why nations in other parts of the world such as Japan and Russia were unable for a considerable time to match the advances made in parts of Western Europe and the United States Finally he attempts to explain why the developing countries are still finding it so difficult to catch up with the economic progress of the more advanced nations Y S Brenner was Head of the Department of Economics at Cape Coast University in Ghana The book arose from a series of lectures on economic development he delivered there during the years 1966 1967 This book was first published in 1969

History of the World John Morris Roberts,1997 Chronologically discusses the events of history beginning with the evolution of man and ending with the restructuring of Western Europe in 1993 *A Short History of Europe* Albert Hyma,2012-09-01

War: A Short History Jeremy Black,2014-03-04 In this concise history of war Jeremy Black ranges widely giving due attention to non western as well as western traditions The history of war is inextricably bound to the history of the world Through a detailed exploration of world scale issues of warfare presented within a chronological framework that spans human history Jeremy Black skilfully illustrates this fact whilst providing the reader with other astute insights and compelling interpretations of war War A Short History is a dramatic move away from the formulaic western approach to military history Too narrow in its focus on wars specific to the west and too simple because of an over reliance on a technologically deterministic reading of warfare this approach has been rejected by Jeremy Black in favour of a global model that takes all factors into account when considering the strengths and weaknesses of a particular military tradition This is a book that is as important for its relevance to current world issues of conflict as it is for its thorough consideration of a monumentally significant aspect of human history *A Short History of England from the Earliest Times to the Present Day* Cyril Ransome,1889 *A Short History of Ireland from the Earliest Times to 1608* Patrick Weston Joyce,1893 **A Short History of the Irish People** Alexander George Richey,1887
