Ricœur at the Limits of Philosophy Barnabas

Aspray, 2022-08-25 Can finite humans grasp universal truth Is it possible to think beyond the limits of reason Are we doomed to failure because of our finitude In this clear and accessible book Barnabas Aspray presents Ricœur's response to these perennial philosophical questions through an analysis of human finitude at the intersection of philosophy and theology Using unpublished and previously untranslated archival sources he shows how Ricœur's groundbreaking concept of symbols leads to a view of creation not as a theological doctrine but as a mystery beyond the limits of thought that gives rise to philosophical insight If finitude is created then it can be distinguished from both the Creator and evil leading to a view of human existence that instead of the anguish of no proclaims the joy of yes

Affirmations of Reason Sigurd Baark, 2018-01-08. This book examines the speculative core of Karl Barth's theology, reconsidering the relationship between theory and practice in Barth's thinking. A consequence of this reconsideration is the recognition that Barth's own account of his theological development is largely correct. Sigurd Baark draws heavily on the philosophical tradition of German Idealism, arguing that an important part of what makes Barth a speculative theologian is the way his thinking is informed by the nexus of self-consciousness, reason, and freedom, which was most fully developed by Kant, Fichte, and Hegel. The book provides a new interpretation of Barth's theology and shows how a speculative understanding of theology is useful in today's intellectual climate. *Facial Gender Affirmation Surgery, An Issue of Facial Plastic Surgery Clinics of North America* Michael T.
