relationships Colonial rule increased the fluidity of customary marriage law as chiefs and colonial civil servants presided over multiple courts and city residents strategically chose the legal arena in which to arbitrate a conjugal sexual conflict Sexual and domestic relationships with European men allowed some African women to achieve a greater degree of economic and

social mobility An eventual decline of marriage rates resulted in new sexual mores as women and men sought to rebalance the roles of pleasure respectability and legality in having sex outside of kin sanctioned marriage Rachel Jean Baptiste expands the discourse on sexuality in Africa and challenges conventional understandings of urban history beyond the study of the built environment Marriage and sexual relations determined how people defined themselves as urbanites and shaped the shifting physical landscape of Libreville Conjugal Rights takes a fresh look at questions of the historical construction of race and ethnicity Despite the efforts of the French colonial government and society to enforce boundaries between black and white interracial sexual and domestic relationships persisted Black and m tisse women gained economic and social capital from these relationships allowing some measure of freedom in the colonial capital city
