Cherry,2015-12-28 If most Americans accept the notion that the market is the most efficient means to distribute resources why should body parts be excluded Each year thousands of people die waiting for organ transplants Many of these deaths could have been prevented were it not for the almost universal moral hand wringing over the concept of selling human organs Kidney for Sale by Owner now with a new preface boldly deconstructs the roadblocks that are standing in the way of restoring health to thousands of people Author and bioethicist Mark Cherry reasserts the case that health care could be improved and lives saved by introducing a regulated transplant organs market rather than by well meant but misguided prohibitions **Not for Sale** Rebecca Whisnant,Christine Stark,2004 Prostitution and pornography are linked with racism and male dominance as well as with imperialism militarism including torture and global corporate culture The result is devastating harm for women and children within these industries Subjected to physical and psychological violence poverty drug addiction and homelessness are their usual companions With its mix of personal stories theory research testimony and accounts of current activism Not For Sale will be an invaluable resource for all those seeking to inform themselves about the realities of the sex business and will serve to strengthen and broaden feminist resistance to pornography and prostitution
