Food in Nineteenth-Century British History Ian Miller,2025-07-25 A curious phenomenon occurred in British food writing from around the 1860s Publishers began printing books dedicated to specific meals Breakfast Luncheons Afternoon Tea Dinners Until this time most cookbooks had been hefty tomes containing hundreds of pages of recipes but the new recipe books were slimmer and more accessible catering for a broader readership The appearance of focused cookbooks reveals the growing influence of advanced printing technologies and rising literacy levels combined with changes in social life and class relations that coalesced around food granting mealtimes great importance The sources reprinted in this volume were produced in response to the changing social dynamics that accompanied industrialisation urbanisation and socio economic modernisation Diabetic Recipes for One and Two Michelle Berriedale-Johnson,2023-10-30 Over 500 million people worldwide are living with diabetes There is a continued universal increase in prevalence confirming diabetes as a significant global challenge to the health and well being of individuals families and societies Present figures indicate USA more than 130 million UK almost 5 million and 1 3 million in Australia with alarming levels of increase in Pakistan India and the Middle East Most cases of diabetes are Type 2 non insulin dependent and happily this is controlled by diet and exercise However as many of today s diabetics are either living alone or as a couple preparing meals using regular diabetic cookbooks which cater for four or more people can provide meals that are too big and wasteful Diabetic Recipes for One and Two solves the problem by offering a collection of easy tempting recipes in smaller portions Based on the very latest research it gives nutritional guidelines advice on how to shop and plan your meals and over 100 recipes catering for contemporary culinary tastes consisting of meals with a high intake of vegetables pulses fruit and whole grains Baked Products Stanley P.
